000 Notes 000

000 Notes 000 - [Notes - Paper numbers and page numbers, refer to the original 1955 Edition of The Urantia Book, published by the Urantia Foundation, Chicago, IL. Transcripts cited can be found within this web site, listed by Celestial Teacher, Date and Group. Opinions and interpretations are those of the Editor.]

0802AB (Jack) now known as Jack, ABY15, and has Humanized as Jack the Ascender

0802AB (Jack) - ... Secondary Midwayer Jack began attempting contact in 1955; he finally got through to the receiver (to whom he was attached) in 1967. I (Gerdean) met Jack in 1968. The receiver and I were wed in 1970 and Jack became a member of our "family" until 1983 when he went with the receiver to Thailand where he seems to still be stationed. He has visited infrequently since the opening of the circuits. His field of service: Awakening the Souls of Men. According to Ham, Jack was with the Advance Corps to work with Mortals in the period prior to the inauguration of the Correcting Time, working with a mortal contact personality towards perfecting the Transmitter/ Receiver process. Jack is a no-nonsense worker for spiritual progress who has spent most of the past 20 years in Thailand and Singapore. Since those days in the twentieth century, Jack has been promoted to become a human ancestor to many would-be transmitters over the long years of his existence. Jack was nominated to humanize and receive a Thought Adjuster in 1994 and was taken to Salvington to await the arrival of the Thought Adjuster, but due to confusion of the records, Jack had to wait another twenty years to obtain the indwelling that would classify him as a human ascender and not a working Midwayer on Urantia. His parentage designation has been changed to make more sense to those who review the records of Midwayers born over 37.800 years ago today, and corrected now to ABY15, a designation that will make sense to humans later on in the later parts of the 21st century.

A'Cilla

A'Cilla - Personal teacher (Colorado & Puerto Rica) - ascended mortal.

A'Sandra

A'Sandra - Lafayette, Colorado Group Teacher.

Aaron

He served as a personal teacher for Spokane group member before becoming a group teacher. He has been known in the past as "Pearson." Aaron first began teaching in the Spokane Washington area in September 1992, and was the group teacher there until 1997 or so. He now teaches as part of the teacher team for the Southeast Idaho Teaching Mission group..

Abbeygail

Abbeygail or AbbeyGail - A personal teacher. She comes from a planet that was just getting started in light and Life (there are 7 stages) when she departed. It has been a very long time by your standards since I was a living person; but on my planet I was a grower of flowers, I worked in a garden, not a garden for vegetables but for ornamental plants. It was very beautiful, and I very much enjoyed my work and was very happy in it."

Abilenia

Midwayer.

Abraham

Abraham - Director of the Teaching Mission (TM). He says, "Commanding officer is somewhat of a strong term made for mortal understanding. I co-command with my associates and fellow teachers. I receive my commands from Michael and I pass them to my associates and to you, my

mortal students.” He is the same Abraham mentioned in the Bible, a student of Machiventa Melchizedek during the Third Epochal Revelation to Urantia, giving him a unique perspective as a teacher. Along with Paramahansa Yogananda, they are among the few teachers known to have hailed from Urantia, our planet. Many of the things that we know about Abraham come from the Bible, is enhanced and made quite real because Abraham will talk about it. His authority is his experience. He has been the group teacher for Woods Cross, Utah since 1995; previous to that, he taught in New Zealand.

Adam and Eve

Adam and Eve - Material Sons/Daughters of God are created in the local universe and reside on Jerusem, the system capitol. They serve as parents to the infants and children of time, who perished before they were of age to choose eternal survival. They also are sent as a pair to evolutionary worlds to ameliorate the faults and shortcomings of evolution. Our Adam and Eve pair materialized on Urantia nearly 38,000 years ago for the purpose of biologically uplifting the mortals of the realm. They were 8 feet tall and were of a violet hue. Their bodies gave off a spiritual luminescence, and at night when they wore their cloaks, the glow from their heads gave rise to the concept of the halo. They had a very difficult mission, because of the planetary quarantine that isolated them from contact with the rest of the universe. They came to a backward planet without a Planetary Prince and with little preparation of the mortal inhabitants for their arrival. Eve bore 105 pure-line descendants before they defaulted on their mandate, and, with Adam, was reduced in rank to that of humans of the realm. Adam lived 530 years and died of old age; Eve died nineteen years before Adam from a weakened heart. [UB, Papers 73-76] [pp. 821-854]

Adjudication Lucifer Rebellion

Adjudication Lucifer Rebellion - The tribunal of the case of Gabriel vs. Lucifer before the courts of the Ancients of Days had already begun before The Urantia Book was given to the Forum group in Chicago in the early 1930's. Completion of the universe judicial decree, wherein all participants had either repented and had been rehabilitated or, as in the case of Lucifer, Satan, Caligastia & Dalagastia, had spurned Divine mercy and were annihilated. The adjudication was decreed in Salvington, Capital of the Local Universe of Nebadon, on March 16, 1985, by our present Urantia calendar, and made it possible for the Correcting Time to begin and for the communication circuits to be reinstated. The reasons that the rebellion was allowed to continue for 200,000 years are discussed in The Urantia Book. ... “You must understand that up until the time Lucifer ceased to exist, he still had free will and had not agreed to the adjudication. The adjudication could not happen until he agreed that it was the right thing to do...” [James, Oct. 4, 1992] The sinner himself must agree with the verdict before adjudication can take place. [UB Paper 54] [pp. 615-618] [See also, the History of the Teaching Mission, Woods Cross, Apr. 20, 1993]

Adjuster, Thought Adjuster, Mystery Monitor, Indwelling

Adjuster, Thought Adjuster, Mystery Monitor, Indwelling - Thought Adjusters are known by various names, as a Mystery Monitor, a Thought Controller, the Indwelling Spirit, Pilot and the individual

fragment of God the Father that lives within mortals of survival potential. It arrives as a gift, a pre-personal spirit bestowal, of the Universal Father when the mortal makes his/her first moral decision, signifying a budding soul, a being of spiritual potential, capable of seeking God and desiring to be like him. "She is a fused mortal from a planet of light and life who has spoken through many, many people around the country. She often is known as one who brings 'Light and Song.'" She also "tunes the body/mind/spirit energy systems within individuals, so that they are able to channel celestials more easily and consistently and continues to raise their levels."

Agondonters, Agondonter

Agondonters, Agondonter - The term and its plural refer to mortal will creatures that are able to believe in God with their faith, without seeing, without proof. They have a special trust-worthiness because of their unquestioned faith and supreme confidence in cosmic reliability. Because Urantia lacked a Planetary Prince with his visible staff, and Adam and Eve were not to remain on our planet due to their default, mortals who believe in God are given this recognition. The age of agondonters will end when we once again have a visible Son of Paradise origin with us. [Rayson, Northern Colorado TeaM, Loveland, CO, USA , Nov. 2, 2003]

Ahbaron Melchizedek

Ahbaron Melchizedek - He arrived in Costa Rica 's Lake Arenal group on January 2002, and he introduced himself, "I am of the order of Melchizedek, and in your human terms, I would be considered very old. I have been on duty on your planet for several thousand years. I have been working with you for some 40 years...[T/R: Oliver Duex] "We are an order of universe teachers. How do you teach creatures on an evolutionary world, a world that has been isolated from otherwise easily accessible spiritual information? How do you go about opening those minds and

hearts even to the possibilities of a direct connection to the Source and Center of all when the regular information flow that normally pours down to a planet of evolution, has been severed – for good reasons....“We were sent even before the circuits were being opened in order that we would unearth safe ways for direct communications with human beings who were neither told about nor trained to seek for such communications on their own, communications with those older brothers and sisters that have been given the opportunity to teach and serve here. Patience, my friend, is the key concept to apply when higher evolved minds desire to communicate with more ‘dense’ mind patterns – which I want you to not construe as a criticism, as it is a straight-out fact...”

Aranda

Aranda - Teacher, Burlington, Iowa. Adjuster-fused female from Mansion World #7.

Archangels

There are about 800,000 of them personalized by the Creator Son and Universe Mother Spirit to work in Nebadon, our local universe. They are dedicated to creature survival and their ascension career. The archangels preserve the records of personality resurrection. There will be 100 of them assigned to the Magisterial Son when he appears. Archangels are the authors of several of the Urantia Papers: 33, 35, 41, 44, 46, 48, and 77-81. They also maintain a divisional headquarters on our planet, a highly unusual arrangement placed here by the direction of Christ Michael. [UB Paper 37, sec. 3] [pp.408]

Architectural worlds

When all seven superuniverses are complete, there will be nearly five hundred billion of these worlds, purposely constructed for their intended uses. The local universe of Nebadon contains 647,591 of these worlds. While they may receive some light from nearby stars, they are heated and lighted independently and therefore do not emit enough light to be seen by Urantia's telescopes. These worlds do not suffer from geologic instability, or weather phenomena. They are made from morontia materials, which include 100 additional elements that are not found on Urantia, and are very beautiful. Morontial materials are abundant on these worlds, but these worlds also serve to be the epitome of material splendour and are replete with lakes and plants and animal life not seen on on worlds like Urantia. You will see your first architectural world when you awaken from the death experience, on Mansion World number one. [p. 174]

She claims to have co-authored "The Zooid Mission" with Gerdean of the Rio Rancho TeaM. She states she was grateful to have an amenable mortal to work with her in her attempt to introduce certain ideals that we might aspire to consider in our aspirations to instigate social progress toward light and life on this planet. Not until 2000 did we get to hear from Athena, when she commented on a project well done. Not until June of 2001 did she acknowledge having worked behind the scenes for all those years.

Attunement

Attunement - A supplanted concept of atonement, meaning to see eye to eye with one's Adjuster. It is also often referred to as "at-one-ment." Attunement points to the increasing coincidence of the mortal will with the Father's will. Eventually, the "at-one-ment" leads to fusion of the soul with the Father's indwelling spirit, the Thought Adjuster, thus the mortal attains divinity attunement, while the Adjuster gains personality expression. [UB, Paper 110, sec. 2] [p.1204]

Bestowal

Bestowal – Given to certain orders of the Divine Sons to appear in the flesh by being born of woman, as Jesus did on Urantia. Every evolutionary planet receives one bestowal Son at some point in its history. Within a local universe, only one inhabited evolutionary world is fortunate to receive their Creator Michael Son in his seventh bestowal; the other 9,999,999 worlds receive an Avonal Son that serves the same purpose. “The bestowals of the Avonal and the Michael Sons are a necessary part of the experiential process designed to make these Sons safe and sympathetic magistrates and rulers of the peoples and planets of time and space. The career of sevenfold bestowal is the supreme goal of all Paradise Creator Sons. And all Magisterial Sons are motivated by this same spirit of service which so abundantly characterizes the primary Creator Sons and the Eternal Son of Paradise.” For the mortals who witness such a bestowal, “it becomes literally true that the divine ‘Word is made flesh,’ and that the Word thus dwells among the lowly beings of animal origin.” [UB, Paper 20, sec.5] [p.227] See also, [UB Papers 119 and 120] [pp.1308-1331]

They sponsored many of the Urantia Papers: 37, 47, 85-89, and 119. [UB Paper 37, sec.2] [p. 407]

Bzutu

C

Caligastia

Caligastia – A secondary Lanonandek Son, at one time Planetary Prince of Urantia until he joined the Lucifer Rebellion. Caligastia served loyally for 300,000 years before taking up the sophistry of his superior, Lucifer. He became ultra-individualistic, resented supervision, and had a tendency to disagree with established order. As he committed to ever more deliberate sin, his personality became completely distorted. Although shorn of power, he remained on Urantia for a time and contributed to the Adamic default through his evil influence. [UB, Papers 66 & 67] [pp. 741-762] He ceased to exist at the time of the adjudication in 1985, choosing annihilation over repentance. [James, Oct. 4, 1992]

Celestial beings

Celestial beings - Under normal circumstances, spirit personalities like the descending sons of God, or ascending sons of God, including mortals who have left their planets of nativity and have become morontial beings, cannot be seen by mortal eyes. These are classed as Acelestial beings. This category does not include mortals still in their physical bodies and currently hailing from other inhabited, evolutionary planets; those would be called 'extraterrestrial' beings or 'off-worlders'. [- JarEl, Arcadia, CA, USA, Feb 16, 2004]

Celestial teachers

Celestial teachers - Includes all orders of spirit or morontia beings that have volunteered to serve in Christ Michael's Correcting Time for Urantian mortals and for the other 36 planets from Satania that had been isolated because of the rebellion. Nearly all orders of created beings serve as celestial teachers, from the Mansion World teachers to those of Paradise origin. Also, a large number of these teachers are morontial beings, having lived on evolutionary planets during their mortal lifetimes, and have since traversed much or all of the mansion world experiences and education, some having already fused with their Adjusters. They have been trained by the Melchizedek order of beings to aid us individually in our spiritual growth and to perform a service of assisting us to uplift the civilizations and social fabric of our world. They serve in the capacities of personal and/or group teachers, communicating with mortals through a mind-to-mind process known as transmitting/receiving or 'TRing'. The transcripts located in this web site have come into being through this method of communication.

Centering

Centering - To use the practice of Stillness to prepare body and mind for communion with the Eternal Father, to enter into the flow of the circuits and be in harmony with the universe. This process is also used for personal communication with one's Thought Adjuster or other Celestial beings, or to achieve group attunement of mind, heart and spirit during sessions of TRing with the Celestial Teachers.

Central Universe

Central Universe - Consists of the Isle of Paradise, surrounded by three concentric rings (circuits) of architectural spheres, each containing 7 sacred spheres of the persons of the Trinity. Beyond these secret spheres of the Deities are found the one billion perfect worlds of Havona, arranged in seven concentric circles. Together with Paradise at the center, plus the 21 sacred spheres, and the seven circuits of the one billion Havona worlds, all of these systems constitute the Central Universe. The Central Universe is separated from the seven Superuniverses by two dark gravity belts, the inner belt rotating counterclockwise around the Central Universe, and the other one rotating clockwise, plus a semiquiet zone. [UB, Papers 11, 13 & 14] [pp. 118, 143 & 152]

This means coordinating between the various missions such as the Michael Second Return interests, the interests of the Melchizedek Planetary Receivers, and a host of other activities on Urantia not now revealed. He coordinates with human groups that produce transcriptions for the Teaching Mission and the Magisterial Mission, and he is of the seventh of his Order to receive the Cross of Michael, a prestigious award for preventing additional rebellion on Urantia and elsewhere.

Cherubim

Cherubim - In all essential endowments, cherubim and sanobim are similar to seraphim. Their function is to assist all seven orders of seraphim with their duties, such as record keeping and other routine spirit work, and at times in liaison with the midwayers. They always serve in pairs, one cherubim and one sanobim, as their personalities are complementary. Classed as morontia beings, they are in-between angels and midwayers. They speak the languages of their local universe and their Superuniverse, and when serving on a planet of mortal inhabitants, they learn the language(s) of that realm as well. [UB, Paper 38, sec. 7 & 8] [pp. 422-424]

Christ Michael

Christ Michael - The offspring of the Universal Father and Eternal Son, he is a Divine Son of the Michael Order, with Creator prerogatives. He created the local universe of Nebadon, and with his consort, Nebadonia, created the various orders of beings that populate this local universe. He later earned Master Son status, with full Sovereignty over the local universe of his personal creation, by going through a series of seven bestowals, where he became an actual member of each order he created and lived an exemplary life as a being of that order. During his seventh and last bestowal, he appeared on this planet, born as the baby known as Jesus, on August 21, 7 B.C. During the thirty-six years he spent on Urantia on his terminal bestowal, his mandate was to exemplify the revelation of God to man and of the personal relationship man can achieve directly with God. He often addresses his children of Urantia with the phrase, This is your Father/Brother, Michael, or This is your Creator and Father, your Brother and Friend. Some of the Christian religious sects that

believe Christ is the same being as the Eternal Son, use the term Michael as the name of an Archangel. [UB, Paper 33] [p. 366]

Circuits

Circuits - These are the discrete and directional conduits of energies of personality, spirit, mind and energy-matter that traverse space for communication, presence, maintenance, healing, and ministry. The universal circuits of Paradise are four in number: The personality gravity of the Eternal Father, the spiritual gravity of the Eternal Son, the mind gravity of the Infinite Spirit, and the material gravity of the Isle of Paradise. The Superuniverse has seven circuits, mainly used for energy transmission, space broadcasts, and the communication within certain orders of beings, such as the Thought Adjusters and Reflective Spirits. The circuits of the local universe are used for the functioning of the Spirit of Truth, the Holy Spirit ministry and the adjutant mind-spirits. [UB Paper15, sec.9] [p. 176]

Citizens, Citizenship

Citizens, Citizenship - The Urantia Book expands the concept of citizenry from local communities, to states, to nations, to the world, and to the concept of cosmic citizenry. Every individual being has importance at all levels in terms of effects upon the whole and responsibilities to the whole--all are interconnected, all are unique, all serve a purpose, all are needed, and all are loved unconditionally by the Father. [UB, Papers 184, 110, and 39] [pp. 1984, 1206, and 435]

Clair

Clair - [2001] Secondary Midwayer, and Consort of Midwayer Mathew. Could not last the distance on this planet, and requested alternative duties.

Clois

Clois - Teacher, Hutchinson, Kansas.

Colanda

Colanda - Personal Teacher, Suitland, Maryland.

Consciousness

Consciousness - The awareness and recognition of self and others. Cosmic consciousness implies the recognition of a First Cause, the one and only uncaused reality. God-consciousness is the intellectual capacity for knowing God. Human consciousness is the recognition of self and the reality of other humans and further implies that such awareness is mutual; that the self is known as it knows. Through The Urantia Book and the Teaching Mission, consciousness is extended to the recognition of the reality of many other orders of spiritual beings, as well as the existence of mortals living on other inhabited planets in the universe. [UB, Paper 16] [p.195]

Constellation

Constellation - An autonomous primary unit of a local universe; there are 100 of these

constellation units in each local universe. Their function is administrative in that they link the 100 systems in their jurisdiction with the local universe administration. The constellation that our system, our world is governed by is called Norlatiadek. The rulers are three Vorondadek Sons, known as the Most Highs. [UB, Paper 43] [p.485]

Coral

Coral - Personal Teacher, Pittsburgh, Pennsylvania.

Corlatia

Corlatia - Name of an individual Archangel in the teaching mission.

Coronas

Coronas - Name of an individual Archangel teaching in the Mission.

Correcting Time

Correcting Time - The Correcting Time includes every human, every soul on Urantia and on the other 36 planets involved in the quarantine from the Lucifer Rebellion. The date of the beginning of the Correcting Time is February 1, 1992, according to Teacher Ham, but it has been long on the mind of Michael, who started planning for this needed correction since the beginning of the period of isolation, 200,000 years ago. Some of the celestial teachers have been in training to assist these worlds for 1000 years of Urantian time. The Correcting Time refers not only to changes in the earth from natural and manmade causes from pollution and over-population, but also to changes that need to be made in regard to man's institutions that deal with economics, politics, religion, education, and in the family, the basic social institution. This plan includes The Urantia Book text, the Teaching Mission, the Magisterial Mission, and will most likely be expanded in the future. It is a comprehensive program that will take approximately 1,000 years on this world, preparing for the beginning stage of light and life. [See the History section within these archives.]

Cosmic Citizenship

Cosmic Citizenship - The Urantia Book expands the concept of citizenry from local communities, to states, to nations, to the world, and to the concept of cosmic citizenry. Every individual being has importance at all levels in terms of effects upon the whole and responsibilities to the whole are interconnected, all are unique, all serve a purpose, all are needed, and all are loved unconditionally by the Father. A Joyful acceptance of cosmic citizenship honest recognition of your progressive obligations to the Supreme Being, awareness of the interdependence of evolutionary man and evolving Deity. This is the birth of cosmic morality and the dawning realization of universal duty. [UB, Paper 110, sec.3.10] [p. 1206]

Cosmic Mind

Cosmic Mind - Mind is the functional endowment of the Infinite Spirit. It co-ordinates matter and spirit and endows innate scientific, moral, and spiritual insight. Spiritual intuition and faith-insight are examples of the functioning of cosmic mind. The Third Person of God is the source of universal

mind; but cosmic mind is modified universal mind to function in time-space by the Master Spirits, The mind of man is an impersonal portion of cosmic mind, a gift of the Creative Daughter Spirit and functions over an individualized circuit. [UB, Paper 9, sec. 4; Paper 16, sec.6; Paper 101, sec.3] [pp. 102, 191, 1107]

Creative Daughter Spirit

Creative Daughter Spirit - Created by the Paradise Third Source and Center, the Infinite Spirit, in reaction to the personalization of a Creator Son by the Father-Son union. She is also known as the Divine Minister of Nebadon, Mother Spirit, source of the Holy Spirit, and consort of Christ Michael, the Creator Son. Her name is Nebadonia; she is everywhere present throughout Nebadon, the local creation to which our planet belongs. She is the Creator of all the local universe level seraphic beings and nurtures all life forms, human, animal and plant. [UB, Paper 34] [pp. 374]

Creator

Creator - The First Source and Center, the one and only uncaused reality, creator of all that exists in the vast Grand Universe. Also known as God the Father, the Universal Father, the First person of Deity, the "I AM," the ONE, the Infinite Upholder, the Divine Controller, the Almighty, and the God of Personality, to mention just a few. In theory you may think of God as the Creator, and he is the personal creator of Paradise and the central universe of perfection, but the universes of time and space are all created and organized by the Paradise corps of the Creator Sons. The Universal Father is not the personal creator of the local universe of Nebadon; the universe in which you live is the creation of his Son Michael. Though the Father does not personally create the evolutionary universes, he does control them in many of their universal relationships and in certain of their manifestations of physical, mindal, and spiritual energies. God the Father is the personal creator of the Paradise universe and, in association with the Eternal Son, the creator of all other personal universe Creators. [UB, Paper 1, sec. 2] [p. 24]

Creator Sons

Creator Sons -These are the Divine Sons, the perfect and personal creations of the Universal Father and Eternal Son. Each of these 700,000 Creator Sons (plus a reserve corps) of the order of Michael Sons are unique in nature and personality and each is destined to design, create, build and administer the local universe that they bring into existence, out of the nebulae and energy manifestations of physical reality provided by the Paradise force organizers. They create not only some of the physical aspects of their local universes such as the status architectural spheres, but with their consorts, the Divine Creative Daughter Spirits, they create the various kinds of beings that populate their local universe. They aspire to bring their own creations into the state of perfection modeled by the perfection of Havona, and to simultaneously reveal the perfection of the Universal Father and the Eternal Son to the beings of their creation. It is customary for each Creator Son to become as one with selected orders of beings of their creation for a period of time to gain and share the wisdom and experience of that which they created. Successful completion of these bestowal experiences gives them complete sovereignty over their domains, making them wise and loving, merciful and just rulers. The Creator Son of our local universe of Nebadon is called

Christ Michael, who is known to us as Jesus for his 7th bestowal experience as a mortal ascendant son on our world. [UB, Paper 15, sec.4, and Papers 21, 33] [pp. 169, 234, 366]

D

Dalamatia

Dalamatia - The headquarters city of the Planetary Prince, established in the Persian Gulf region about 500,000 years ago. At the time that Caligastia came to Urantia as our Planetary Prince, mankind had been evolving for half a million years and numbered nearly a half billion primitive humans scattered throughout Europe, Asia and Africa. The Persian Gulf region was selected as the headquarters site because it was in the center of the population and had a favorable climate. This area, later called Mesopotamia, became the Acradle of civilization@ because of the teachings of Caligastia's staff that advanced the culture of mankind in the areas of growing food, domestication of animals, industry and trade, education and sanitation, to name only a few examples. After the Rebellion, a tidal wave from the Persian Gulf swept over the city and caused its obliteration. [UB, Paper 66 & 67] [p. 741-761]

Damalia

Damalia (Social Architect) - [introduced in 1994] In 1996, he brought together individuals within the teaching mission who were interested in publishing.

Danalenia

Danezia

Danezia - Midwayer.

Daniel

Daniel - Group Teacher, Pocatello, Idaho.

Daphne

Daphne - Celestial Artisan - Female Ascended Mortal, her name is familiar from Greek mythology.

While the Greek Daphne was a nymph who is changed into a laurel tree to escape Apollo's advances, in the Teaching Mission she has worked with Jarad of the Nashville TeaM. She takes credit for helping his songwriting career. Their most notable co-creative effort thus far is entitled "You Picked a Fine Time to Leave Me Lucille" -- a song laden with messages for men, women, couples, friends and lovers for all time.

Daranadek

Daranadek (Darek) - Melchizedek Planner.

Daranadek

Daranadek - Melchizedek: assigned to LinEL group - may be the same melchizedek as attached to one or another NW group. Feels "younger" than Machiventa, but definitely has the melchizedek flavor.

Darid

Darid - Personal teacher, North Idaho group.

David

David - Celestial artisan, Cincinnati, Ohio.

David

David - Midwayer, Salem, Oregon

David

David - Personal Teacher, Coffs Harbour, New South Wales, Australia. (May possibly be the same David as the celestial artisan or the midwayer mentioned above.)

Deity

Deity - In the Urantia Revelation, the concept of Deity is greatly expanded to include the functions of personal, prepersonal and superpersonal levels. ADeity may be existential, as in the Eternal Son; experiential, as in the Supreme Being; associative, as in God the Sevenfold; undivided, as in the Paradise Trinity. @ [UB, Foreword, sec. 1] [p. 1]

Descending Sons

Descending Sons - Sons of various orders created in a state of perfection, which accept incarnation or spiritual missions to serve the lower imperfect orders of beings as they ascend, in order to gain experiential knowledge. An example would be our own Christ Michael, a Creator Son of the Michael Order, who Adescended@ through seven orders of beings: He served as a Melchizedek, a Lanonandek, a Material Son, a Seraphim, an ascendant mortal, a morontia mortal, and last as a mortal infant, born in Bethlehem. [UB, Paper 20] [p.223]; [UB Paper 119] [p. 1308]

Devina

Devina – An angelic being, who brings her love and acceptance since June of 2000 to the “jungle group” on Lake Arenal in northern Costa Rica. Alana described her: “And your delightfully broken record, Devina, flits about, fluttering her wings upon your turmoil, you mental disturbance, and she says, ‘Surrender all fear and confusion to our Heavenly Father.’” Devina works with metaphors, “Each of you, imagine a silver string attached down through the uppermost space at the top of your skulls, down to the center of your heart. Yes? Now, I hold these silver strings. I tug upon them, but just a tiny bit, now. Yes? Remember this, I tug upon these silver strings to bring you a little lightheartedness, everywhere you go, every time you forget.”

Disciples, Modern

Disciples, Modern - Modern day disciples are those who choose to follow the teachings of the Gospel of Jesus and share those teachings with willing listeners, to actively practice loving others as Jesus/Christ Michael loves them, and to love God and willingly serve mankind for the glory of the Father. [UB, Paper 180, sec.1] [p. 1994]

Dispensation

Dispensation - The closing of a spiritual age or planetary epoch, and the beginning of a new one, the most recent dispensation announced by Christ Michael June 8, 1995. [Sarasota, Florida, transcript of June 8, 1995] Currently, we just began the Transition Era. [Monjoranson B Dec. 7, 2008, NOCO #103] Because of Urantia's highly unusual history, we do not fit into the normal categories of the planetary mortal epochs. The actions of the Correcting Time will help to advance Urantia to the status it should have for a world in the postbestowal Son age. The Magisterial Son's ministry will be a large part of this correction as well. [UB, Paper 52] [p.589] [See also History of the teaching mission, Abraham, circa 1992.]

Dispensational Roll Call

Dispensational Roll Call - An action by the universe administration, which calls up all sleeping survivors, (those of potential soul survivability but who had not reached a certain level of attainment in their spiritual growth during their mortal lifetimes,) to their resurrections on the mansion worlds. The first one occurred at the arrival of the Planetary Prince, 500,000 years ago, and the most recent one followed the end of the adjudication of the Lucifer Rebellion. Besides the dispensational roll calls, special roll calls are also performed at least every millennium for the awakening of the sleeping survivors. This is done so that the new morontial pilgrims can be instructed in groups. It does not apply to those individuals who have reached a requisite level of spiritual attainment; they have a shorter sleep of only three days. [Michael, Sarasota, Florida, Jun. 8, 1995]

Divinington

Divinington - An architectural sphere, one of the sacred spheres of the Father, in the orbit of 7 Father worlds closest to the Isle of Paradise. It is the home world of the Thought Adjusters, Gravity Messengers, and other Father fragments. It takes a Thought Adjuster, 117 hours, 42 minutes and 7

seconds to travel from Divinington to Urantia, but nearly all of this time is taken up on Uversa, the superuniverse capitol, when the Thought Adjuster registers the mortal of his imminent indwelling as a soul of spiritual potential, signified by that mortal=s making his/her first moral decision, usually around five or six years of age. [UB, Paper 108] [p. 1185]

E

Eden

Eden - When a world is in need of a biological uplifting, when natural evolution has become stagnant, a Material Son and Daughter are sent to the planet for this purpose. Urantia's Material Son and Daughter were called Adam and Eve, and a garden home was made for them prior to their arrival, called Eden in honor of Edentia. The first Eden was a peninsula of land at the eastern end of the Mediterranean Sea and was a place of great beauty, with an abundance of vegetation, fresh water, and a place for animals on the adjoining mainland. Here Adam and Eve taught the more advanced peoples of the region better ways of providing for their material and spiritual needs. The first Eden sank as a result of normal geological disturbances. A second Garden of Eden was later built in the area of the Tigris and Euphrates rivers, near the previous city of Dalamatia . It too, sank below the waves of the Persian Gulf. [UB, Paper 73] [p. 821]

Edentia

Edentia - It is the name of the headquarters world of our Constellation of Norlatiadek, an architectural sphere of unimagined beauty and grandeur. It is 100 times larger than Urantia and has 770 satellites for a total cluster count of 771 spheres. Advancing mortals spend much time there, socializing and learning in the Melchizedek schools. [UB, Paper 43] [p. 485]

El Tanere

El Tanere - A Spirit-fused being who has taught in York, Pennsylvania and Loveland, Ohio.

Elaine

Elyon

Elyon - Group Teacher, Coeur d'Alene, Idaho. Elyon is a fused mortal ascender who has become noted for his use of metaphor. Ham said of Elyon that he was an expert with words. As a mortal he also lived upon a quarantined planet.

Encircuited

Encircuited - To be connected to one of the many different kinds of universe energy circuits, which circulate throughout the universes by definite routes. An example would be the circuit a Transport Seraphim would use to carry a spirit being from one world to another, or those circuits used in mindal communication over long distances.

Ensa

Ensa - The name of our minor sector, one of the physical divisions within the superuniverse of Orvonton. The capitol of Ensa is Uminor the third and it has seven satellite worlds for the study of higher physical realities. [UB, Paper 15] [p. 164]

Enzia

Enizia - Midwayer (Pronounced en-eet, sia).

Epochal Revelation

Epochal Revelation - The purpose of revelation is to exalt and up-step the religions of evolution by periodic teachings, tailored to the needs and capacity for receptivity of the mortals. It is a response to the hunger of mortals to believe and depend upon the Deities for their source of truth. Every inhabited evolutionary planet receives a series of epochal revelations throughout its history, to correct errors in the beliefs of men and direct them on a more enlightened path of progress. The Urantia Book is one example, the fifth one to be given to Urantia. [UB, Paper 92, sec. 4] [p. 1007]

Error, evil, sin & iniquity

Error, evil, sin & iniquity - Error is the inevitable result of the immature creature's use of free will from a misconception or distortion of reality, an unwise judgment, or a decision made with incomplete facts or lacking of intellectual keenness. These will be forgiven and forgotten in eternity. Evil is the darkness that follows rejection of light, and immature choosing of less than is righteous, of choosing error over truth; an imperfect obedience to the Father's will. Sin is a willful, conscious identification with evil, a deliberate transgression of divine will. Sin retards intellectual development, moral growth, social progress and spiritual attainment, but does not prevent them.

Sin has repercussions but is correctable; forgiveness is available if mercy is accepted. Iniquity is the persistent pursuit of sin and error, a destruction of the connection of soul with spirit, a rejection of divine forgiveness, a lack of sorrow for misdeeds. It is spiritual suicide. [UB, Paper 67, sec. 1] [p.754]

Ester

Ester - Teacher, Kansas City

Eternal Son

Eternal Son - Second Source and Center, the Second Person of Deity, the Original Son and with God the Father, is the co-creator of other divine Sons. He is the source of spirit, the administrator of all spirit, the center of spirit in the universe and therefore all things spiritual are drawn to him, and because he is co-eternal and co-ordinate with the Father, he is a full equal to the Father. [UB, Papers 6 & 7] [pp.73-89]

Evanson

Evanson - Personal Teacher, Coeur d'Alene, Idaho.

Eve

Eve - Teacher, Sarasota, Florida and Sandy, Utah.

Evolution

Evolution - Organic evolution is never a cosmic accident; it is masterfully, intelligently planned, following Deity specified patterns and processes, designed individually for the conditions found on each evolutionary world of space that has or will have, physical characteristics favorable to the support of life. The Life Carrier Sons design the genetic code necessary for the evolution of all living life forms that are intended for that planet. They place this purposely planned, Deity designed genetic code into a life supporting protoplasm and implant this substance into a suitable, sheltered place in the environment, impart the spark of life that gives it life and animation, and allow it to grow and evolve through long ages of adaptation into the various kinds of plant and animal life that will eventually lead to and support the evolution of mortal will creatures, intelligent, bi-pedal beings, capable of finding God and desiring to be like him. In every living cell, plant or animal, there is an innate insatiable craving for the attainment of ever increasing perfection, a need to adapt to environmental conditions, and organismal adaptations that give it not only survival qualities, but also an enhancement of characteristics that lead to improvements in quality of life. "The Urantia midwayers have assembled over fifty thousand facts of physics and chemistry which they deem to be incompatible with the laws of accidental chance, and which they

contend unmistakably demonstrates the presence of intelligent purpose in the material creation. And all of this takes no account of their catalogue of more than one hundred thousand findings outside the domain of physics and chemistry which they maintain prove the presence of mind in the planning, creation, and maintenance of the material cosmos.” [UB, Paper 58, sec. 2, and Paper 65] [p.665, p. 730]

Experimental planet

Experimental planet - Every tenth planet in a given System comprising 1,000 spheres capable of supporting life, is designated a decimal world, a planet where the Life Carriers are allowed to experiment, modify, and attempt to improve the life forms, within limits. Urantia is one of these life-experiment worlds upon which developed twenty-eight modifications that were successful and will be allowed to be utilized on future worlds in Nebadon. Unfortunately, some of the modifications tried by the Life Carriers were handicapped by the Caligastia betrayal and Adamic default. Some of the primitive forms of plant life reverted and became parasitic bacteria, causing serious diseases in the higher mammals. The Adamic uplift would have corrected much of this problem by making man immune to bacterial and viral effects if Adam and Eve had not defaulted in their mission. It now rests on human mind endowment to use science and ingenuity to solve some of these biological problems that plague our world, but we are not without divine assistance in this matter. We have been given the opportunity to co-create the solutions to Urantia's problems, mankind working with celestial beings to discover corrections for these problems. This is one aspect of the Correcting time. [UB, Paper 65] [p. 730]

F

Faith

Faith - The outgrowth of the insight born of the activity of the indwelling Adjuster. It is the recognition of the spiritual consciousness, an attribute of personal religious experience. It is born of a confidence and dependence on God. It is the tool for dealing with man=s greatest problems. It is man=s passport to eternity; it brings man to union with God. It is to religion what sails are to a ship; it makes believers secure in the kingdom of God, it causes potentials to become actuals in the spirit world. The faith of Jesus is the most outstanding example of what is possible when man dares to trust completely in the Father. The faith of Jesus was wholehearted, personal and spiritual. He clearly demonstrated sublime trust in the leadings of his Heavenly Father. Jesus devoted his entire earthly life to following the will of his Father, with complete confidence and trust; he forever leads the way to eternal life. [UB, Paper 196.] [p. 2087]

Father Fragment

Father Fragment - An alternate term for the Thought Adjuster, which is a pre-personal fragment of

the Heavenly Father, given as a gift to mortals with spirit potential, and which is a homing device to lead man to God, to help him with the trials of living, and to teach him what he needs to know to grow his soul into an eternal reality. At some point in man=s spiritual growth, fusion takes place between man and his Father Fragment. [UB, Papers 107-112] [pp. 1176-1240]

Father Fused

Father Fused - Ninety percent of the mortals in Nebadon are destined to fuse with their Father fragments. By this technique, the pre-personal Father fragment gains personality, and the ascending son gains immortality, divinity attainment, and access to the experiential history and knowledge of the Father. There are also Son fused and Spirit fused individuals, but not many from Urantia. [UB, Paper 40] [p. 443]

Felicia

Felicia - Teacher, Sedona, Arizona. Works with mortals to help raise their vibration levels.

Fifth Epochal Revelation

Fifth Epochal Revelation - The Urantia Book is Part I, the Teaching Mission is Part II, and the Magisterial Mission is Part III of the currently appearing epochal revelation on Urantia. And so the Fifth Epochal Revelation (FER) is to unify the religious understandings of Urantia that the fact of the loving parent will become known and the world will be one in all its grand diversity.@ Epochal revelation is designed to correct philosophical error, assess the evolutionary religions and science, and adjust the planetary and human history to a factual account of events from the past on an inhabited planet. [Daniel, South East Idaho, USA, Feb. 15, 2004]

Finaliters

Finaliters - The career of destiny for Father-fused mortals that have faithfully ascended all the worlds of specialized training, have mastered the will of the Father, and achieved perfection of intention as creatures of time and space. Finaliters serve the Paradise Trinity on the worlds of space. They have learned to be superb administrators within the Grand Universe until such time as their skills and experience will be needed in the administration of the outer space universes. They are a new being who consists of an eternal union of the perfect Adjuster and a perfected one-time-mortal creature. [UB, Papers 40, 10, & 31] [443, 108, 345]

Floreena

Floreena - Assistant to the Most Highs.

Foehn

Foehn - Teacher, Norman, Oklahoma. (Pronounced Fawn)

Frank/Alice

Frank/Alice ("I'll be Frank" and "Alice") - [2000] Cherubim and sanobim pair with hundreds of years of psychology studies between them. They are Psychology Analysts and Advisors.

Fusion

Fusion - The makeup of your being, your true self, is the combination of your personality, your soul, and your Divine Father Fragment within. The personal soul-self and the divine Adjuster combine together in such a way that no being in the universe can tell which portion was the mortal soul and which part was the Adjuster Father. In effect, what results is a new type of being that is personalized at the moment of fusion. Understanding these three elements of your being erases the confusion that is often found in the teachings of the many religions existent upon this planet. Y. Your personality is changeless; it is the anchor of your entire makeup. You have begun a relationship that is transforming into a living reality, your soul. These three aspects when fused are eternalized. Your body and mind will not remain with you as you know it today.@ [Elyon, Light Line, Feb. 26, 2004]

G**GabreEl**

GabreEl - Brilliant Evening Star (Pronounced G aab-ree-el). Liaison officer for Gabriel.

Gabriel

Gabriel - Gabriel is the Bright and Morning Star, a unique individual and Universe Aid of which there is only one in a given local universe. All first born of a local universe are named Gabriel and all serve as the Chief Executive of that local universe. Gabriel is the chief executive of Nebadon, functions as regent in Michael's absence, and is supreme commander of the Seraphic armies of heaven. It is Gabriel who appeared to Elizabeth and Mary prior to the births of their sons John and Jesus respectively. [UB, Paper 33] [p 369]

We midwayers are not to be released until the planet becomes fully settled by the Trinity.

Geveny

Geveny - Personal Teacher, Salem, Oregon. Works as a team with Eleveneth.

Gideon

Gideon - Personal Teacher, Spokane, Washington.

God Consciousness

God Consciousness - The human mind, because of the cosmic endowment of mind and the indwelling of the Adjuster, is able to discern the fact, the law, and the love of God. Discerning the spiritual presence of God is determined by the capacity of receptivity and the consecration of the creature=s will to doing the divine will. God has already reached down for the contact with man through the gift of the Thought Adjuster. When the mind of man recognizes this presence of divinity within, and desires to have more contact with his Heavenly Father, this upward reach of man to God results in soul growth that gives man ever more direct contact and communion with God and the awareness of that as fact. Jesus attained a state of unbroken communion with God, which he attained through intelligent prayer and sincere worship. [UB, Papers 5, 100, 196] [pp. 62, 1094, 2087]

Gorman

Gorman - [1996] Secondary Midwayer, able leader, brilliant teacher of "The Father's Business". Companioned Harp group from 1996 through 2000, when he was reassigned.

Gracie

Gracie - Personal Teacher, Coffs Harbour, New South Wales, Australia.

Grand Universe

Grand Universe - It is the inhabited creation only and does not take into account the outer space areas, which presently do not contain life, but only the organization of matter and energy. The grand universe consists of the the central universe, which is made up of the Isle of Paradise and Havona , and the seven superuniverses, with their major and minor sectors, local universes, constellations, local systems and seven trillion inhabited planets (the time-space universes). It is not only a physical/material creation, but it is a responsive, living organism, permeated by energy lanes and intelligence circuits that activate it and nourish it much as the human body is nourished by means of the circulatory system that distributes energy to all parts of the body. It is subject to the over-control of the mindedness of the power centers. [UB, Paper 116, sec.7] [p.1276]

Guardian Angels

Guardian Angels - Although much of the teachings about guardian angels are based on myth, nevertheless they are real and play a crucial role in the spiritual destiny of mortals on all inhabited worlds. Their voluntary ministry is to individual mortals. They generally serve in pairs and are assisted by cherubim and sanobim. In the beginning of a mortal=s life, one seraphim pair will oversee a group of 1000 mortals with assistance from a company of cherubim, but as the mortals ascend in their psychic circle growth of spiritual attainment, the numbers of mortals served by a seraphic pair become fewer in number, until such time as the mortal achieves the requisite spiritual status to have a pair of destiny guardians assigned to him/her exclusively. Angels do not invade human mind or interfere with the free will decisions of the mortals of their assignment, but they guide you into situations of learning and spiritual growth. At death, your destiny guardians become the custodial trustees of your records, your identity specifications and your soul, until you are re-personalized on the mansion worlds. They remain your companions for much of the time while you progress toward Paradise, simultaneously furthering their own advancement of seraphic education. [UB, Paper 113] [p. 1241]

Indwelling Father

Indwelling Father - Also known as the Father fragment, the Thought Adjuster, the Thought controller, the Mystery Monitor; the gift of the Universal Father to the evolutionary mortals, the Father=s love incarnate in the souls of men. It is this fragment that leads man to become perfect, to become eternal. Because these Father fragments have characteristic spirit luminosity, they are often referred to as the pilot light or the Alight of life. [UB, Papers 107-112] [pp. 1176-1240]

Infinite Spirit

Infinite Spirit - Third Source and Center, Third Person of Deity, the Conjoint Actor, the Conjoint Creator, Universal Spirit, Infinite Mind, Spirit of Spirits, the Holy Spirit, the Paradise Mother Spirit, and the God of Action. This third person of the Trinity is directly or indirectly the creator of all the Seraphic Orders, the Divine Ministers, and the bestower of mind. The Infinite Spirit is able to exert a personal influence on mortal man through the action of mind, as in the saying, Being led by the Spirit of God. [UB, Papers 7 & 8] [pp. 81-97]

Inhabitable Planets

Inhabitable Planets - All mortals begin life on an evolutionary planet, an orb consisting of 100 naturally occurring chemical elements. (Additional elements made by man do not count.) Mortal man is not an accidental creation; there is a precise system, a universal law that determines what life forms will develop, beginning with simple ones and progressing through the divine technique of evolutionary growth and development. Not all planets are suitable for life forms to develop, and most worlds go through millions, if not billions, of years of geologic stabilization before they are ready for life implantation by the Life Carriers. No two worlds have identical life forms; life forms must be modified from basic patterns to conform to the unique characteristics of the worlds of space. All planets that are given life plasm by the Life Carriers, are preprogrammed to eventually develop mortal creatures of will dignity, intelligent, erect bipeds, but they vary greatly in all other

respects; the inhabitants may live 25 years on one planet, but 500 years on another; some need an atmosphere, others are non-breathers; in response to the size of the planet and the amount of gravity, the mortals may vary from 2.5 feet in height to 10 feet; some mortal beings fly, some live on land and some live in the water. [UB, Paper 49] [p. 559]

Ionah

Ionah - Andite Leader, on the sea journey from Japan to South America and settling in the Andes. Sometimes known as "Kontiki Viracocha." Primary Midwayer Andrea accompanied these Andites on their journey. There are legends connected with the Mayans, Aztecs, and Incas that they were visited by a tall man that came by sea, with a white face, a long beard and blue eyes, that they regarded as a God. In Ionah's transcript, he states that he was a pure Andite, six feet tall, with blond hair and that there was another man with him with a full beard and blond hair who was from the Mediterranean region. Ionah also says that of the 860 people who traveled with him on 16 large ships, that one of them was of the yellow race and one was black. Of the large mysterious Olmec carved heads found in the region of Meso-America, might they have been inspired by this black man with Ionah? There are not verifiable dates to positively link Ionah's voyage to the native legends, but it does give one reason to wonder. [Ionah, Barnard List, Australia, May 13, 2003]

Jesus / Joshua ben Joseph

Jesus / Joshua ben Joseph - Jesus was born Aug. 21, 7 B.C. the first-born of 9 children. He was an exceptional child, very intelligent, well behaved, and was well liked by his peers and elders. He learned the carpentry trade from his father and became very skillful. Jesus was 14 when his father died, which forced him to assume the role of head of his household as the eldest, to become the sole supporter of his mother and 8 siblings. He took care of his family, seeing to the education of his brothers and sisters, and did not leave home to begin his ministry until he had trained his oldest brother, James, to assume the duties he had been carrying as head of the household. Jesus continued to earn and send money to his family, and with the marriage of James, Jesus returned home to train the next brother, Joseph, to head the household. Jesus was 24 before he was relatively free from his responsibilities to his family and could be away from home for longer periods of time, returning periodically to continue the training of his younger siblings. At 27 years of age, Jesus was able to begin his intense preparation for his ministry, as he traveled and taught in Rome, Crete, Alexandria, Corinth, Athens, Antioch, the Caspian, and back to Jerusalem. Jesus was 31 when he ended the Lucifer Rebellion on Mt. Hermon, and later that year he presented himself to his cousin John for Baptism. Next came the choosing and training of his Apostles, and teaching as they traveled through Samaria, the Decapolis, Galilee, and Phoenicia, periodically going back to Jerusalem before the start of another tour. For five years they preached to the multitudes, leading up to the crucifixion on April 7, AD 30, at 36 years of age. Following his resurrection, Jesus made many appearances in his morontial form before bestowing his Spirit of Truth to all of humanity, as he had promised. His seventh and last bestowal finished, he was

proclaimed Planetary Prince of Urantia, and Master Son and Sovereign of his local universe of Nebadon, by the Ancients of Days and by the Eternal Father and the Eternal Son. [UB, Papers 120-196.] [pp. 1323-2097]

Knowingness

Knowingness - The validation that one gets internally from the Thought Adjuster and the Spirit of Truth. [Rayson, Northern Colorado TeaM, Loveland, CO, USA, Sept. 16, 2001] The experience of God-consciousness remains the same from generation to generation, but with each advancing epoch in human knowledge the philosophic concept and the theologic definitions of God must change. God-knowingness, religious consciousness, is a universe reality, but no matter how valid (real) religious experience is, it must be willing to subject itself to intelligent criticism and reasonable philosophic interpretation; it must not seek to be a thing apart in the totality of human experience.@ [UB, Paper 5 p. 69]

I, at one time, although I had been raised with all the tenderness of love on a planet of love, experienced, you might say, a crisis of-you would say, faith-I will say, love. Prior to that experience I worked as, you might call it, as a laborer, one who must have a strong body and the willingness to use that strength at tasks of endurance. When I embraced that crisis with love, I learned to greatest lesson of all, that love is real, that to love is the greatest vocation, and I became a leader of men, and so, you might say, I became a teacher. "Of his mortal marriage, he shared: "I was very fortunate. I was led to marriage by a very loving father. He took me by the hand and showed me a beautiful woman. Her face and body may not have met your present standards of beauty, but her being was of such ascendant beauty that I was attracted immediately and showed no resistance to my father's wisdom."

The Life Carriers number one hundred million in Nebadon and are entrusted with establishing physical life on evolutionary worlds. They are grouped into three divisions, senior Life Carriers, assistants and custodians. After implanting life, they are allowed to manipulate life environment to foster biologic evolution, but once human creatures of moral status appear, they are not allowed to make any further adjustments. The vital spark of life, is bestowed through the Life Carriers by the Universe Mother Spirit [UB, Paper 36, sec. 1-4] [pp.396-400]

Light

-Light, a female-type entity, and her associate, WAVE (a male-type entity), were jointly commissioned by Father fusion of potentials with humans in teaching mission groups. They took origin in the early 2000's of Urantia's present calendar, and have no directly assigned duties to perform until Monjoronson arrives in the flesh. Their work while mostly confidential to the Magisterial Son, is as liaison personalities between the staff of Monjoronson (and to and with the future Jesus when he returns with Monjoronson in later years), and mortals of the realm who need direct and personal attention in order to become serving members of the Light Teams to be established everywhere around Urantia.

Light and Life

Light and Life - When an evolutionary planet has completed its successive planetary ages, when it has progressed to the point of having one religion, one language, and usually one race, most diseases having been conquered, war no longer exists, poverty and social inequality have vanished, degeneracy and delinquency are nearly gone, and the natural resources are fairly distributed, then the planet is considered to be ready for the golden age of light and life. There are actually seven stages where this occurs, starting with the individual planet, and progressing up through the system, constellation, local universe, and on up until the whole superuniverse is settled in light and life. [UB, Paper 55] [p. 621]

Love

Love - All true love comes from God; the love of the Father is seen in the mortal personality by the ministry of the indwelling Adjuster and is always in a state of motion, a circuit that flows from the Father, through the Sons, to our brethren and back to the Father; it can never be imprisoned in the heart of man. Love becomes real when it is bestowed upon others; it is infectious and brings about universal brotherhood; it destroys fear, hate and sin. The love of the Father absolutely individualizes each personality as a unique child of the Universal Father, a child without duplicate in infinity, a will creature irreplaceable in all eternity. [UB, Paper 12, sec.7] [p. 137]

Lucifer

Lucifer - A brilliant primary Lanonandek Son who served as a loyal Sovereign over the System of Satania for 500,000 years before he decided that there was no Universal Father and made a Declaration of Liberty, contending that the local systems should be autonomous. Through pride, he convinced himself that the rebellion was for the good of the system, and was able to ensnare large numbers of celestial beings throughout Satania to join him in his rebellion against the Father=s over-control. He even tried to enlist Michael in his plan for secession. Jesus terminated Lucifer=s power when he met with the archrebels Lucifer, Satan, Caligastia and Daligastia) on Mount Hermon defeating them as the Son of Man, without using his Divine powers. Lucifer=s was the third rebellion in the Local Universe of Nebadon, all of which occurred before Michael had earned his Sovereignty. Lucifer was tried, along with his cohorts, in front of the Ancients of Days in the case called Gabriel vs. Lucifer, and after the four archrebels again spurned the offers of mercy they were offered by Michael, they chose annihilation and are no more. Thus ended the trial and adjudication that took place in the fall of 1985. [UB, Paper 53] [p.601] [History, Mission and Transformation, by Duane Faw, Jan.28, 2003]

Machiventa Melchizedek

Machiventa Melchizedek - A distinguished member of the order of Melchizedek. He is known in Urantian history as the ASage of Salem.@ Machiventa came to Urantia and served 94 years in the flesh, working to prepare the way for Michael=s bestowal mission. Because of the Lucifer Rebellion and the Adamic Default, the spiritual Alamp@ had nearly gone out. Machiventa served as an emergency teacher to uplift the belief in one God by revelation, in order to prepare the way for the planned bestowal of a Paradise Son. He materialized as an adult male, six feet in height, dressed as a priest and had a commanding presence. He spoke seven languages of the region and was also known as the ATeacher of Salem@ and the APriest of El Elyon.@ He gathered a core of students and taught them as much as they could receive, particularly the doctrine of one God, a Creator and heavenly Father. He gave them seven commandments to live by and supplanted their beliefs in blood sacrifice with a sacrament of bread and wine. Abraham was one of Machiventa=s pupils and a loyal supporter. The Salem teachings were kept alive through the generations by Abraham=s offspring, forming the core of the religious beliefs of the Hebrews and the Muslims, and also spreading to Rome, Egypt, Asia, India, and to all parts of Mesopotamia. Following the end of the Jesus bestowal, Michael became Planetary Prince of Urantia. He asked Machiventa to serve as Vicegerent in his stead. Machiventa was given the title of Planetary Prince in his own right in 2002. [UB, Papers 93-95] [pp. 1014-1051] [See history transcripts: June, 1989, Feb. 1, 1992]

They may also appear in judicial actions as dispensation terminators, liberating the sleeping survivors for resurrection in the halls of mansonia. Each Avonal Son also has at least one bestowal mission, where he is born of woman, as was Jesus. On missions other than bestowals, they appear in visible form as adult males. On some technical missions, the Avonals may not be visible to mortals. Planets may have numerous magisterial missions. Urantia is nearing its first Magisterial Mission, a part of Christ Michael=s Correcting Time Plan. [UB, Paper 20] [p. 223]

He has been present in invisible form since July 2001, while planning for his administration. Monjoronson has been contacting Correcting Time groups and others worldwide, letting them know of his coming, preparing them for his arrival. He is also known as the Beloved One, and by other names in other cultures. His true universe name has not yet been revealed. His name and estimated time of arrival cannot be found in The Urantia Book, as his coming was dependent on the final adjudication of the Lucifer Rebellion. [See section on the history of Urantia's Magisterial Son, Monjoronson.]

Magisterial Sons

Magisterial Sons - They are Paradise Avonal Sons, the creation of the Eternal Son and the Infinite Spirit, about one billion in number in the grand universe, each one a new and divine ideal of loving service. They come into being as Divine administrators, descending Sons who reveal themselves as servers, bestowers, judges, teachers, and truth revealers. They work closely with the Creator Sons, the Michaels, of each local universe. [UB, Paper 20, sec. 1-4] [pp. 223-226]

Mansion Worlds

Mansion Worlds - Seven architectural worlds, about the size of Urantia orbiting Transition World #1, among the 56 architectural worlds that orbit around Jerusem, the System Capitol. These are the beginning worlds of training for the mortals of the evolutionary worlds after mortal death, the heavens conceived of by prophets through visions and the origin of the biblical saying, In my Father's house are many mansions. Mortals of time begin their eternal careers on the mansion worlds after their awakening in the resurrection halls, where they are given a new physical body

and their soul, mind, personality identity and memories are returned to them from safekeeping by their guardian seraphim and Thought Adjuster. They advance sphere by sphere, as they learn the lessons that they failed to learn on their planets of nativity, and are compensated for deprivations and handicaps from mortal life. [UB, Papers 46-48] [pp.519-558]

[UB Papers 56 & 119, end notes] [pp. 648 & 1319] "I am your Regional Manager, your Regional Representative or guiding Melchizedek influence in this area. As you may know, or may not be aware, that there is a council of Melchizedeks who have regional...the words 'governance' and 'supervision' are inappropriate...we act as an Administrative Unit, geographically and energetically attached to various areas of the planet. My area happens to be the Rocky Mountain Cordillera, the range of mountains going north and south, and even into South America. The region ranges from the Rocky Mountains to approximately near to St. Louis and the Mississippi Valley, and westward to the Sierras. There are other Melchizedeks who administer to those areas east and west." [Mantutia, Northern Colorado TeaM. Feb. 10, 2002]

Mary, Mother of Jesus

Mary, Mother of Jesus - Mary met Joseph when he worked for her Father, building an addition to their house. They courted for two years and married in March of 8, B.C. when Joseph was 21 years of age. Mary was well educated, an expert at weaving, a good housekeeper and superior homemaker. She was of excellent lineage, with ancestors that could be traced back to Eve, as well as many other well-known women of Syrian, Hittite, Phoenician, Greek and Egyptian stocks. She gave birth to Jesus/Joshua on Aug 21, 7 B.C. She later gave birth to James, Miriam, Joseph, Simon, Martha, Jude, Amos, and Ruth. Amos died before his sixth birthday from a high fever; the other children all lived into adulthood. [UB Part IV, the Jesus Papers, #120-196]

Master Son

Master Son - When a Creator Son of the order of Michael has completed the Local universe of his making, he serves as a vicegerent regent until he goes through a series of seven bestowal experiences, becoming as an ordinary son of each order of beings that he created. The purpose is to become a wise, sympathetic, just, and understanding ruler of their domain. Christ Michael bestowed himself on the following orders of beings within his own creation: A Melchizedek Son, a Lanonandek Son, a Material Son, a seraphim, an ascendant pilgrim of mortal origin assigned to Uversa, a morontia mortal of ascending status, and lastly, as the infant child, Joshua ben Joseph/Jesus, born on August 21, of the year 7 BC, in the city of Bethlehem. After Christ Michael had completed these seven bestowals to the satisfaction of the Ancient of Days and the Universal Father and Eternal Son, he was proclaimed Sovereign of Nebadon. It took one billion years of Urantia time to complete these seven bestowals. He lived identical lives of the beings of his own creation, and did each of them so well that he earned the respect of all beings throughout Nebadon. Urantia was especially fortunate to have received the superb example set by Jesus as he

lived an exemplary life dedicated to the will of his Father in Heaven. Urantia is the only inhabited, evolutionary world of 10,000,000 in Nebadon to have had the honor of hosting our Creator Son, Christ Michael on his seventh bestowal mission. [UB, Papers 119 & 120] [pp. 1308-1331]

Master Spirit

Master Spirit - A Master Spirit is dedicated to one segment of the seven segments of the Grand Universe. Their work is extra - spiritual, meaning they develop areas of space that are not necessarily in time, although their duties are primarily in time for this universe era of development of God the Supreme. The Urantia Book devotes Paper 16 to their description and to their function. In our definition for this Glossary we will not attempt to restate Paper 16, but provide the reader the revelation of their names and their universe names as they head each Superuniverse to provide it mind and spirit devoted to one feature of the creative purposes of the Supreme purposes of time.

The following table will provide information about the Master Spirits which is not fully explained in the Urantia Book text due to the length of that text. In the original Papers presented to the humans on Urantia to receive the Urantia Book in the early and mid-twentieth century, the Master Spirit names and various designations were available, but they were edited out due to the record of the Life of Jesus being added to the text that had not been originally planned for. We restore these names and other kinds of information here:

Mathew

Mathew (33:3:33) - [2001] Secondary Midwayer, not a native of this planet. Only about 3' tall. He studied us from afar, and elected to join the 11:11 Progress Group of Australia. He is extraordinarily restless and considered humans on this planet to be very slow, and not very bright compared to those of his old haunts - a very advanced world.

Maxel

Maxel - Group Teacher, New Bloomfield, Pennsylvania.

Meeshack

Meeshack - Personal Teacher, Spokane, Washington - Probably an ascended mortal.

Mekken

Mekken - Midwayer - Works with healing research. Burlington, Iowa.

Melchizedek Schools

Melchizedek Schools - The schools of advanced culture and spirituality found throughout the local universe, and on some of the inhabited planets. Urantia is beginning to be taught by the superb teachers of these schools, through the Correcting Time program. We bring forth the inspiration to change parenting and to change institutions of punishment into institutions of loving rehabilitation. Choose your field of interest or interests, choose your level of commitment now in the coming months and we will continue to work with you in bringing forth these Melchizedek schools from which the curriculum will be clarified, amplified to bring your learning to its fruition, and then to shine forth as beacons. This light will burn ever brighter for your institutions are indeed crumbling. You must reform these institutions in the light of responsibility and service. It is time to quit reciting your despairs and take hold in loving faith accessing these energies through the stillness and take an active hand in helping us reclaim this place, yes? [Abraham, circa 1992]

Melchizedek Sons

Melchizedek Sons - The Creator Son, Michael and the Creative Spirit, Nebadonia, together created the first Melchizedek, who is called the Father Melchizedek. Then the Father Melchizedek working with Michael and Nebadonia, created the rest of the Melchizedek Sons, numbering more than ten million for service in the Local Universe of Nebadon. They are superb teachers, counselors, observers, and advisors. One of their numbers volunteered to come to Urantia on an emergency bestowal mission to uplift the spiritual climate and keep the belief of one God alive for the terminal bestowal of Michael. This son, Machiventa, has been appointed Planetary Prince of Urantia, and also directs the activities of the Correcting Time for his Sovereign, Michael. Many more Melchizedek sons serve on Urantia, as well as throughout Nebadon. [UB, Paper 35] [p. 384]

Mentori

Mentori - They are specialists of all kinds. They are progressive in their ways. They are healers, and they come from many different sources, even from this Super Universe 'availability.' So far, as it concerns your additional Midway Helpers, they are from this local universe. A percentage of Mentori Specialists have arrived from far beyond our realm. The greater number of these consists of individuals of different species you have never heard of. They are still unrevealed, but they are specialists.

Merium

Merium - Co-taught with Teacher Tomas in the Pittsburgh and Butler Pennsylvania groups, 1997-2000 and is still assigned primarily to that area, although she loves parties and TeaM conferences. Merium is a "young" Teacher. On her home world, she was an only child, just a "teenager" when she left for mansonian. She was like the village babysitter, and was always surrounded by the children, who loved her. She still loves to "get down on the floor and play with her children," which

is what she now considers her mortal associates. She is known for coming in and opening the windows of our minds, to let in fresh air, and for "fluffing up our pillows" after having listened to one of Tomas' ponderous lessons.

Messenger Hosts of Space

Messenger Hosts of Space - These versatile beings function as the connecting links between the higher personalities and the ministering spirits. They include the Havona Servitals, Universal Conciliators, Technical advisors, Custodians of Records on Paradise, Celestial Recorders, Morontia Companions and Paradise Companions. [UB, Paper 25] [pp 273-283]

Michael Sons

Michael Sons - This order of Divine Creator Sons, some 700,000 in number in the Grand Universe, are created by the Universal Father and the Eternal Son, each known as the Aonly-begotten Son@ because even though they can function in a similar manner, each has an individual personality that makes him unlike any other Michael Son. These Sons are the personification of the Paradise Father-Son, to and in their local universes. Each is destined to form a Local Universe of his own making, and with the Creative Daughter Spirit, to create the living beings that will inhabit this physical creation. Each Michael must earn the right to govern his creation as Sovereign, by completing 7 bestowals, in which he incarnates as a being of each order of beings that he himself, created. In this way he becomes a wise, merciful and loving Brother and Father to his sons and daughters. [UB, Papers 21 & 33] [pp. 234, 366]

Michael, Christ Michael

Michael, Christ Michael - Creator Son of Nebadon, Sovereign, Master Son, Lord Jesus and Father/Brother to all beings of his creation. He possesses all the divine attributes and powers of the Eternal Son within Nebadon, and has additional power and authority to fully represent the Universal Father within his local universe. He exerts the same spiritual drawing power and spirit gravity on the local scale that the Father has from Paradise. To our local universe, he represents God; he is omnipotent, omniscient and omnipresent. He is ably assisted by his Consort, the Divine Minister, the Universe Mother Spirit of Salvington, Nebadonia. His main concerns within his realm are creation, sustenance and ministry. He does not participate in judicial affairs, as Creators never sit in judgment on their creatures those duties are under the supervision of Gabriel. Legislative and executive functions are largely in the hands of councils. In Administration, he is also assisted by numerous beings from the Superuniverse, such as Trinity ambassadors, at his request. [UB, Paper 33] [p.366]

Midwayers

Midwayers - Born and found on most inhabited worlds. They are invisible to the human eye and

exist in-between mortals and the angelic orders in nature and function. They are able to manipulate physical objects, when allowed to do so by their angelic superiors. Of the first group of midwayers, the primary group, there were exactly 50,000 created by Prince Caligastia's corporeal staff, working for the administration of the Prince. The second group, the secondary midwayers were the offspring of the pure Adamic stock, the children of Adam and Eve mating with the offspring of the members of the Planetary Prince's staff, for a total of 1,984 of these special beings. Four-fifths of the primary midwayers and 873 of the secondary midwayers joined Caligastia in the rebellion and were removed from Urantia. The remaining 1,111 loyal secondary midwayers, along with the loyal 9,881 primary midwayers, joined forces as the United Midwayers of Urantia and still serve on our planet. Since the adjudication of the Lucifer rebellion, all of the rehabilitated midwayers were returned to service on Urantia, as well as large numbers of midwayers from other worlds settled in light and life, who volunteered to come to Urantia to participate in the Correcting Time. The midwayers serve a valuable function in the communication links between Celestial Teachers and mortals, being well versed in the languages and customs of the mortals. They also assist the seraphim with physical tasks on the evolutionary worlds. [UB, Paper 77] [p.855]

Mind, Body & Spirit

Mind, Body & Spirit - Mortal man has at its core, a spirit nucleus; mind is a personal energy system surrounding the divine spirit nucleus and functions in liaison with the material environment. [UB, Paper 12, sec.9] [p. 141] Mind is always dominant over matter and is an indispensable channel of communication between matter and spirit. In relation to personality, the physical is subordinate, the mind co-ordinate, and the spirit is directive. [UB, Paper 116, sec. 6] [p. 1275]

Minearsia Melchizedek

Minearsia - A Melchizedek "Teacher-in-Residence" with the Southeast Idaho Team. In late 1995, Rayson visited the SE Idaho Team and announced that Tomas had been assigned a Teacher Base assignment and that the group would be receiving a new teacher. Several weeks later, Minearsia, a Melchizedek arrived to address the group's upstepped needs.

Minor Sectors

Minor Sectors - Subdivisions of the major sectors, as there are 100 minor sectors in each of the ten major sectors. The minor sector that Nebadon is in is called Ensa, and the Capitol is Uminor the third. [UB, Paper 15, sec. 7] [p. 174]

Miriam

Miriam - Personal Teacher, Spokane, Washington - Ascended Mortal.

Moiraya, Master Spirit 3

Moiraya is the name of Master Spirit Number Three. He is the Voice of the Infinite Spirit to the creations of time and space. Moiraya sees to the distribution of cosmic mind and other energies not mentioned in the Urantia Book to the third superuniverse creation called Manvando. See Paper 16 Section 3 for more information.

Monjoronson

Monjoronson is the pejorative name of an Avonal Son hailing from Paradise and as the Order of Avonal Sons, is personalized by the Eternal son and the Infinite Spirit. They are used by the Paradise Trinity to come to planets like Urantia to cleanse it of rebellion and sin and may take up to 1,000 Urantia years to complete the correction of such planets to the satisfaction of the existential Deities and the Paradise Trinity in particular. Monjoronson, is also a name that has been used to use as a pseudonym for various other divine personalities operating on Urantia for the benefit of the Magisterial Mission on Urantia, but as of June, 2016, it is used exclusively, for Avonal son, # 13154157, a partial serial number provided to be sure no one else is identified with the name Monjoronson except # 13154157. Monjoronson is also a pseudonym effacing this Avonal Son, as true Deity names are withheld from the evolutionary races due to their inability to translate the universe language for pronunciation and meanings derived within the names of Deity.

Monmatia

Monmatia - The Universe name for our solar system. Our sun, created 5 billion years ago, was approached by a neighbouring system, Angona, which had a tremendous gravitational pull. It disgorged a large portion of the matter from our sun, a column of gasses pointed on both ends and bulging in the center, which was not captured by Angona or re-captured by the sun. This column of gasses condensed into a series of 10 planets, plus three more that Monmatia captured from Angona. All of Monmatia grew in time with the capture of meteoric material and some of the debris from the Angona system. One of the planets suffered disruption, forming the Asteroid Belt between Mars and Jupiter, and our sun was later able to recapture some of the material extruded as their erratic orbits caused them to stray too near. [UB, Paper 57, sec. 5 & 6] [pp. 655-658]

Moreal

Moreal – A personal teacher.

MorGan

A Personal teacher, Colorado, and a visitor to many groups.

Morontia

Morontia - In the local universe, the morontia realm is the liaison between the material and spirit levels of existence. In a physical sense, it is a semi-material substance composed of varying mixtures of spirit and material energies. The more spiritual the mixture, the lighter the substance. (It is normally invisible to the human eye.) The human soul is formed of this material as it grows during the mortal lifetime. With each step of progress through the morontial career, the ascending mortal becomes slightly less physical and slightly more spiritual, with each transition necessitating a change of the body or vehicle that the budding spirit possesses. There are 570 of these physical to morontial changes until the stage of pure spirit being is attained, when the physical body no longer exists of these changes are made in the system, 71 in the constellation, and 491 on the spheres surrounding Salvington. On Salvington, you become a first-stage spirit. Architectural spheres are made of morontial material, which is created by modifying the revolutions of the primary units of matter, slowing them down to produce other elements. While Urantia has 100 naturally occurring elements, mansonia has 200. [UB, Paper 42, sec.10; Pager 48, sec 1] [p. 480; p, 542]

Most Highs

Most Highs - Three Vorondadek Sons are selected to rule over each Constellation for a set period of years. They also serve as the supreme advisory cabinet of the Creator Son. They rule in the kingdoms of men as over-controllers of political evolution; they are occupied with groups, not individuals and foster the greatest good for the greatest number of people, without violating human free will. [UB, Papers 43 & 134] [pp. 485, 1483]

Mota

Mota - Mota is defined as that ability that allows additional intellectual insight into material/spiritual relationships. Man cannot have mota while in the flesh, but once he is removed to the mansion worlds, the new mind circuit contains the additional capacity to see the relationships of the spiritual universe with the material universe in greater dimension. The higher philosophical insights of man come close to mota, but falls short of actually performing as mota performs for morontia ascenders. The URANTIA Book explains it this way: "Mota is more than a superior philosophy; it is to philosophy as two eyes are to one; it has a stereoscopic effect on meanings and values. Material man sees the universe, as it were, with but one eye--flat. Mansion world students achieve cosmic perspective--depth--by superimposing the perceptions of the morontia life upon the perceptions of the physical life. And they are enabled to bring these material and morontial viewpoints into true focus largely through the untiring ministry of their seraphic counselors, who so patiently teach the mansion world students and the morontia progressors. Many of the teaching counselors of the supreme order of seraphim began their careers as advisers of the newly liberated souls of the mortals of time." [UB, Paper 48] [p.554]

Mother Spirit

Mother Spirit - Known by various names and titles: Nebadonia, Divine Minister, Universe Mother Spirit of Salvington, Creative Daughter Spirit, Consort of Michael of Nebadon. Created by the Third Source and Center, she and Michael preside over Nebadon as Divine Parents over all the sons and daughters of their creation. Her presence pervades all of Nebadon at all times; she never leaves Nebadon, whereas Michael does make journeys to the superuniverse headquarters worlds, as well as to Paradise. [UB, Paper 33, sec. 3] [p. 368]

Mullerin

Mullerin was personal teacher to Dr. John Wormeck, aka Jeremiah, who was an active missionary in the early days of the Teaching Mission prior to his translation to Mansonia in 1996. She was created by the Third Person of the Trinity, the Conjoint Actor, also called the Holy Spirit. Personalities created by her alone are most numerous. She is the Creator of the seraphic beings within Nebadon, and the bestower of mind as a representative of the Conjoint Actor, as well as her personal influence as the presence of Holy Spirit. She provides the spark of life that animates all life, creatures and plants, on all worlds of Nebadon. [UB, Paper 34] [p. 374]

One Without Name or Number

One Without Name or Number - Was part of the Celestial Group of advisors during the preparation of the channelled Urantia Papers. These beings are one-time mortals who have gained perfection and are embraced by the Paradise Trinity. They are the third and last group of the Trinitized Sons of Attainment who have developed the ability to worship beyond the skill of all the sons and daughters of the evolutionary races from the worlds of time and space. They have acquired a spiritual concept of the eternal purpose of the Universal Father, which comparatively transcends the comprehension of the evolutionary creatures of name or number; therefore are they denominated Those without Name and Number.@ More strictly translated, their name would be "Those above Name and Number." This order of sons is embraced by the Paradise Trinity in groups of seven thousand. There are of record on Uversa over one hundred million of these sons commissioned in Orvonton. Since Those without Name and Number are the superior spiritual minds of the survival races, they are especially qualified to sit in judgment and to render opinions when a spiritual viewpoint is desirable, and when experience in the ascendant career is essential to an adequate comprehension of the questions involved in the problem to be adjudicated. They are the supreme jurors of Orvonton. [UB, p 246,7]

Order of Melchizedeks

Order of Melchizedeks - The joint offspring of the local universe Creator Son, the Creative Spirit, and the Father Melchizedek. They are superb teachers and administrators, serving as chief aids to Gabriel as emergency Sons, and run the 490 spheres of education in orbit around Salvington. There are 10 million Melchizedeks in Nebadon. A group of 12 receivers took charge of Urantia when the Planetary Prince went into rebellion. One of their numbers, Machiventa, was an emergency Son to Urantia to keep the light of truth from going out before the arrival of Jesus. Christ Michael named Machiventa to be Planetary Prince in his stead, and has now put him in charge of the Teaching Mission portion of the Correcting Time. Many Melchizedeks serve in the Teaching Mission as regional Managers, Teachers and trainers of the morontia volunteers. [UB, Paper 35] [Numerous transcripts from the Teaching Mission archives] [p. 384]

superuniverses, around the Central and Divine Universe, the Paradise Havona creation of perfection. When complete it will consist of 1 trillion inhabited planets, 10 major sectors (fairly symmetrical star clusters), and 10 trillion suns. Looking through the densest plane of Orvonton, in the direction of Paradise, one sees the Milky Way. Orvonton is not yet complete. Its capitol is Uversa. [UB, Paper 15] [pp.164, 172]

P

Paradise

Paradise - The eternal center of all creation, the abode of the Trinity and their divine co-ordinates and associates. It is an immense material creation of magnificent beauty and physical perfection, made of a substance not found elsewhere. It is not spherical, but a flattened ellipsoid, and has three regions, upper, peripheral and nether Paradise. Upper Paradise is divided into various areas for the abodes of Deity and the Spiritual Beings resident on Paradise. Peripheral Paradise has the landing and dispatching fields for visiting spirits and enormous exhibit areas assigned to the Creator Sons. Nether Paradise has to do with space potency and force-energy, a zone that acts like a gigantic heart, pulsating currents of energy to the outermost portions of physical space. All forms of force and all phases of energy are encircuited, traveling throughout the universes and returning through these circuits back to nether Paradise. [UB, Paper 11, sec. 0-5] [pp. 118-123]

Parsonel

Parsonel - Midwayer

Paulo

Paulo is a phase-two Teacher in the Teacher Corps whose speciality is rebellion. He came into the Teaching Mission as a regular instructor and stayed briefly with the Spokane group, focusing his lessons on the merits and demerits of rebellion. He was with the group only a few months before he vanished from our sight. He did not say where he was going but we surmised he would be going where the affects of rebellion are still an active concern.

Personality

Personality - Personality is the gift of the Father, bestowed as a potentially eternal endowment. It identifies man as a spiritual being, uniquely individualized which allows free will action. It responds to other personalities and to the personality circuit of the Father. It is bestowed before and is independent of the Thought Adjuster, although the Adjuster augments the qualitative manifestation of personality. Personalities are representative of a series, type, order or pattern, but no two are alike. It is that part of an individual that enables recognition of a person even if their form has changed it is recognizable identity. Personality is involved in moral decisions,

spiritual choice, truth discernment, unselfish love, altruism, purposeful co-operation, cosmic insight, the grasp of universe meanings, and the personality dedication to do the will of God and to worship him. [UB, Paper 16, sec. 7 & 8] [pp. 192-195]

Pharon

Pharon - Personal Guardian Seraphim, Kansas City, Missouri.

Planetary Prince

Planetary Prince - The Life Carriers request a Planetary Prince when a world has developed mortals of will status. At this point, man had been evolving on Urantia for 500,000 years and was still primitive, ruled by animal fear and tribal superstition and in need of training in living and working with others, the beginnings of civilization. Generally it is a Lanonandek Son who is assigned to a planet ready for a civilizational uplift. Although the Planetary Prince is invisible to the humans, his staff is not. The staff sets up schools and teach a variety of skills, such as basic cultivation of the soil, home building, and spiritual culture. The classes are progressive in nature, as the mortals are taught agriculture, food preservation, government, sanitation, pottery, metal working and so on. The students are then sent out amongst their people to share the knowledge. The Prince and his staff normally stay on a world, teaching ever-higher concepts of wisdom, philosophy, brotherhood and religion, until a planet reaches the age of light and life, at which time the Prince is elevated to Planetary Sovereign. Urantia's Prince Caligastia served admirably for 300,000 years before following his superior, Lucifer, into rebellion and was then removed from his post. The planet went into Melchizedek receivership until Michael finished his 7 bestowals and became Planetary Prince. However, Michael asked Machiventa Melchizedek to serve in his place as Vicegerent. In 2002, Michael promoted Machiventa to be Planetary Prince in his own right. [Ham, Los Angeles, CA, USA, Feb.1, 1992] [See history transcripts: June, 1989, Feb. 1, 1992]

Porshel

Porshel - Personal Teacher, Corvallis, Oregon.

Porshel

Porshel: personal teacher, LinEL group.

Predestination

Predestination - In a sense we are all predestined to reach perfection should we not reject our own ascension careers. That destiny is generally known to become a perfected mortal and to serve the Paradise Deities as a finaliter. However you are all divinely inspired. Your choice of how to manifest this inspiration is entirely up to you. You will find that it coincides with your interests,

aptitudes and talents. For your life's plan is your Thought Adjuster's life plan. They are one. Would you choose to accept the plan that the Father and your indwelling spirit have developed for you or would you not? And can you ascertain what this plan is? If you do not know what this plan is, ask God. [-Abraham, circa 1992.]

Prepersonal spirit

Prepersonal spirit - The fragment of God that is sent to indwell man is without personality, its individualization is pre-personal; that is, it came before personality. As the Father fragment aids man to build a survivable soul, the goal is to fuse with that morontial soul, and thereby gain personality expression. At fusion, the mortal and Father Fragment are forever "one," a new spirit creation, inseparable in eternity, each gaining from the other. [UB, Papers 110, 112] [pp. 1203, 1225]

Primary midwayers

Primary midwayers - Created beings, which are just outside of our visual range, the primary midwayers serve a valuable role as liaisons between the human and angelic beings. 50,000 were brought into existence by the non-sexual union of the 100 members 50 couples of Prince Caligastia's corporeal staff. They were named according to the order in which they are created, such as A1-2-3 the First, A4-5-6 the First, and so forth. During the Lucifer rebellion, 4/5 joined with Caligastia in the rebellion and were removed from the planet. The others remained loyal to Christ Michael and joined in service with the Melchizedek Receivers. After the adjudication of the rebellion, the primary midwayers that had accepted Michael's mercy and were rehabilitated were allowed to return to Urantia, once again to serve with their loyal brethren. [See also Midwayers and Secondary Midwayers] [UB, Paper 77]

Psychic circles

Psychic circles - These are psychological and spiritual experiential progress levels of the human attainment of personality unity. They begin in youth (about 6 years of age) in the seventh circle and journeying inward to circle number one as mortals achieve self-understanding, self-conquest, and self-mastery. The circles are divine benchmarks to gauge human achievement and no circle is left without the approval of the Thought Adjuster. By the time circle one is achieved, the mortal experiences contact and communion with their Adjuster. These levels of achievement are possible during the mortal lifetime, but will be continued on the mansion worlds if death precedes completion of the circles. [UB, Paper 113, sec. 1] [p. 1241]

Pulsar

Pulsar - Was a visitor to the Colorado Springs, Colorado group from a great distance away from Urantia. Talked of the Light Within, or the Holy Torch.

Q

Quarantined worlds

Quarantined worlds - Worlds and systems that participate in rebellion or disloyalty to the Creator Son or to the Trinity are placed in isolation to stop the spread of evil until the Ancients of Days holds court and rules on the matter. Urantia and several other inhabited worlds were placed in quarantine (all communications severed) when Lucifer and Caligastia went into rebellion against the universe government. The isolation continued for 200,000 years, until the adjudication took place in 1985. Our world is now being normalized and brought back into the communication circuits through the action of Michael's Correcting Time. [Bertrand, Jul. 22, 1992]

Quickening of time

Quickening of time - In the past an event in the local community was the world. In your experience the world is now your local community. Your time frame and your perception are different. You perceive a quickening of time. So, in one respect your statement is correct. The Correcting Time has begun, this is a time for humankind to re-assess, to acknowledge all that is, to understand and accept Consciousness and the Simplicity which is God, and so, in some respect, time as you perceive it to be, shall no longer exist because you will be in God's Time. [Abraham, New Zealand, Apr. 18, 1991]

Rebellion

Rebellion - Out of ten thousand systems in the local universe of Nebadon, there have been three rebellions by local system administrators, the last being the one that affected the System of Satania and Urantia. They all occurred before Michael achieved full Sovereignty. Lucifer began as a brilliant and loyal Administrator of the System of Satania, but gradually through evil and error became a believer in self-assertion and liberty, and was able to convince his associate, Satan, and another 37 Planetary Princes to join him in his manifesto to reject universe allegiance, including our Planetary Prince, Caligastia and his associate Daligastia. Through self-deception, Lucifer's pride led him further into deliberate and willful sin. For two years of system time, the rebels were allowed to continue with their scheme, trying to convince other free willed celestial beings to join them. At that point, Lucifer was dethroned and stripped of power and the 37 systems

that had participated in the rebellion were placed in quarantine, with all connections to the rest of the universe severed to contain the further spread of evil. All participants were offered mercy by Michael if they chose to repent their actions and be rehabilitated. The rebels were allowed to roam freely on the System Capital for 200,000 years until the completion of Michael's seventh and last bestowal. As Michael became Sovereign, he petitioned the Ancients of Days to intern Lucifer on the prison world until the adjudication of the case of Gabriel vs Lucifer. At the end of the trial, those who were found guilty and rejected mercy Lucifer, Satan, Caligastia and Daligastia chose annihilation. Following the adjudication, which occurred in the Fall of 1985, the quarantine has been lifted and the quarantined worlds of the System of Satania are being normalized. Since Michael became a Master Son and Sovereign of Nebadon, rebellions by celestial administrators can no longer take place. [UB, Paper 54, sec. 5] [p. 617]

Remembrance Supper

Remembrance Supper - The only sacrament that Jesus established was the sharing of bread and wine in remembrance of him. He used parables and symbols to make it difficult for his successors to attach precise interpretations and meanings through traditions and dogma, but his efforts were thwarted by the development of precise interpretations and rigid formulas by the churches that developed in his name. Jesus' intention was that his followers would have a simple symbolic rendezvous with him, that the simple act of thinking of him reminds us that he is always present with us through spirit-consciousness. [UB, Paper 179, sec. 5] [p. 1941]

Revelation

Revelation - "The technique used to expand the truth in the ascension career. It is the illumination of spiritual teachings, the correction of errors in evolutionary religion, a clarification of knowledge, a synthesis of science and theology to create harmony with spirit and a validation of faith. It unifies science, philosophy, religion and history. Revelations are continuous in the leadings of the Thought Adjuster where it is concerned with eternal realities, survival of personality, and the attainment of Deity. Planetary or epochal revelations occur when there is a stagnation of growth or a near extinction of spiritual truths. Revelation is prohibited from giving unearned or premature knowledge, for over-revelation stifles imagination. You are blessed with a revelation placed in your hands [The Urantia book], in this age that has greatly assisted you in soul orientation. You have welcomed this information for it has brought food for the mind, it has brought water for the thirsty soul. We are under the charge of Michael, while dedicated to the mission of transforming Urantia from a world wandering from a lack of planetary administration, are ever sensitive to the most important growth possible within this supreme experience; that is the unfoldment of your spiritual potential as personalities, the emergence of your soul, your ultimate gift to the Father." Sacred worlds

Sacred worlds - This phrase refers to the 21 satellites in three orbits between the Isle of Paradise

and the billion worlds of Havona, and are part of the Central Universe. There are seven worlds for each person of DeityCFather, Son and Spirit. These worlds hold the secrets of Deity and are closed to spirit beings unless they have a purpose for being there. For example, Divinington is the home of the Thought Adjusters and other beings created exclusively by the Father; no other beings are allowed there. Ascendington is only open to the perfected ascending creatures of space; it will be our home for a period of time until we attain Paradise status. Spiritington is the Paradise home of the high beings of the Infinite Spirit, and so on. [UB, Paper 13, sec. 1] [p. 144]

Sanobim

Sanobim - A category of the lowest order of ministering spirits. On Urantia they assist the guardian angels or other seraphim in their duties. Each sanobim is more passive than their partners, the cherubim, as their innate functions are complementary. They are created by the Mother Spirit as needed and there are more than 500 million pairs of them in Nebadon. They are capable of ascending to the status of seraphim, and many are mansion world teachers. [UB, Paper 38, sec.7] [p. 422]

Sarah

Sarah - [2001] Secondary Midwayer, brought in to work with members interested in publishing, replacing Gorman. Her specialty was publishing for "the man in the street."

Sartason

Sartason - Personal Teacher, Celestial Artisan, Spokane, Washington.

Satan

Satan - He was a primary Lanonandek Son of great brilliance, the First Lieutenant of Lucifer, who followed his superior into rebellion. He refused the mercy and rehabilitation offered by Michael, and was annihilated at the close of the adjudication of the Lucifer rebellion. On Urantia there is much confusion concerning Satan, Lucifer and the Devil; they are frequently linked into one being, called the Anti-Christ. In reality, Lucifer, Satan, Caligastia and Daligastia were individual Lanonandek Sons, who joined together in the plan for rebellion. None of them ever were capable of invading normal mortal minds or souls of free will standing, without the mortal or spirit being=s expressed desire to be aligned with their presence and wickedness. Being a faith son of God is effective armor against evil, sin and iniquity. [UB, Paper 53] [p. 601]

Satania

Satania - The name for the system in which our planet resides. Urantia was the 606th planet to become inhabited within this system. It is not yet complete in formation, having only 619 inhabited worlds of the 1000 projected inhabited planets. The capitol is an architectural world called Jerusem, which is surrounded by the 49 worlds comprising the mansion worlds and their associated spheres of training for the new morontial students of the system. Lucifer was the original System Sovereign, but after he caused the rebellion, he was deposed and replaced later by Lanaforge, a loyal Lanonandek Son who refused to follow his superior into rebellion. [UB, Papers 45, 46] [pp. 511,519]

Seconaphim

Seconaphim - Produced by the Reflective Spirits in groups of seven: One, a primary Seconaphim, is assigned to the Ancients of Days; three secondary Seconaphim are assigned to the administrators of the superuniverse governments; and three tertiary Seconaphim are attached to the ascendant Trinitized associates of the superuniverse rulers. These specialized beings are Aliving mirrors@ for instant communication between government rulers over vast distances in space. [UB, Paper 28, sec. 3-6] [pp. 307-317]

Seraphim

Seraphim - The order of Seraphim are the angels we have come to know in literature and story. A large category of beings created by the local universe Mother Spirit (representative of the Holy Spirit) that serve in a myriad of ways throughout a local universe. At the time the Urantia Book was presented to Urantia, there were 500 million pairs of seraphim on the planet. They are the angels of the local universe, providing various forms of ministry, and as they ascend through the Superuniverse to the Corps of Seraphic Completion, they may become specialists in many areas, such as Brilliant Evening Stars, celestial artisans, Paradise Companions, Trinitized Sons, and even finaliters along with us. [UB, Papers 26, 30, 31, 37-40, 114]

Seraphington

Seraphington - One of the 21 sacred spheres of the Divine Universe, the destiny for the ministering angelic hosts. One of the secrets of this sphere is the mystery of seraphic transport. The achievement of Seraphington for the seraphim far transcends mortals attaining eternal survival; it is the eternal goal of all the angels. [UB, Paper 13] [p. 144]

SERARA

SERARA is the name of the Co-Director of the Magisterial Mission on Urantia. It was He with Michael of Nebadon who visited Urantia in the Middle Ages in the year 1212, to determine what had to be done on Urantia and why due to the Lucifer Rebellion. Both Michael and Serara made the tour in the company of Urantia's Planetary Prince, then Caligastia, and later deposed by the Bestowal and presence of Jesus, who begat the phrase, "Get ye behind me Satan!" for Satan was upon Jesus when he met both transgressors once more as the bestowal Son. Serara has directed the Magisterial Mission on Urantia since 1212, but resigned in 2016 to avoid conflicts with the Eternal Son on Paradise who wisely reminded all that the House that Jack built (civilization) will come tumbling down almost immediately when these Missions incarnate. Serara is now Chief of Avonal Sons in Nebadon and controls all indicators for new Magisterial Missions in all of the local universe of Nebadon from now on.

Serena

An Order of Sonship not revealed on Urantia until the advent of the coming of Michael, known as the Second Return. This Order of Sonship originates on Uversa in the outer rim of planets dedicated to the planetar problems in various sectors of Orvonton. Her Order is referred to using the feminine pronouns and they incarnate when required as females of the species on the planet which they may appear on as advocates of human difficulties that require immediate attention and correction. Serena has been a spokesman for the Magisterial Mission since 2004 and may be found by using her name to search the transcripts on this web site (tmarchives.com). She will officiate in the flesh on Urantia when Monjoronson signals that She and her associates (a total of 12 in number for the Magisterial Son Mission) may join the staff of humans being planned for

during the mission's early work on Urantia.

Serenia

Serenia: relatively young unfused mortal, arrived on Urantia in December 1992 and was assigned as a personal teacher but is a frequent group teacher to the LinEL group. Very easy to transmit, light in spirit, uplifting, compassionate, motherly, very much feminine, extraordinary patience.

Seven Adjutant Mind Spirits

Seven Adjutant Mind Spirits - Children of the Universe Mother Spirit, represent the functioning of the mind ministry of the Infinite Spirit. They condition the course of organic evolution and accompany the Life Carriers. They are not entities, but more like circuits as they minister to creature mind. The first five Adjutants—the spirits of intuition, understanding, courage, knowledge, and counsel—minister to the lower levels of experiential minds (animals and humans), and the last two—the spirits of worship and wisdom—operate only in mortal minds with spiritual potential. Mind prior to the capacity to learn from experience, is ministered to by the Master Physical Controllers. [UB, Paper 36, sec.5] [pp, 401-403]

Sleeping Survivors

Sleeping Survivors - Upon the death of a mortal, as the body is left behind, the guardian seraphim and the Thought Adjuster take possession for safe-keeping, that mortal's identity the personality, mind matrix, soul, memories, knowledge of spiritual values and meanings until that identity is resurrected on Mansion World #1 in a new morontia form. Depending on the mortal's level of spiritual achievement at the time of death, their state of being sleeping survivors will last either three days or until the next dispensation or millennial resurrection, when they will be given a new material body and their identity returned as they awaken as a new morontial being, ready to begin the next step of their eternal career. [UB, Papers 30, sec. 4; Paper 49, sec. 6] [pp. 340; 568]

Solitarington

Solitarington - A sacred world within the Central Universe devoted to the beings created by the Universal Father and Infinite Spirit, the home of Solitary Messengers and some of the other superangelic orders, as well as the Universe Power Directors. [UB, Paper 13] [p.144]

Solonia

Solonia - Known in the Bible as "The voice in the garden", she was a seraphim attached to Adam and Eve during their sojourn on Urantia. Solonia is still active on this planet, serving as a personal teacher to Daniel of the Church Within, and co-creator of many gardens at the Church property in Post Falls, Idaho. She is a wonderful teacher and companion to many Urantians. Solonia also wrote the papers in The Urantia Book, detailing the history of the Adamic Epochal Revelation and its failure. [UB, Papers 73-76] [pp. 821-854]

Son-fused beings

Son-fused beings - Mortals fused with individualized bestowals of the Creator Son, an opportunity for the few individuals who fail at fusion with their Father fragment. They become citizens of the superuniverse, but frequently journey to Paradise on assignment. [UB, Paper 40, sec. 8] [p. 449]

Sonarington

Sonarington - Paradise home for the Sons of the Eternal Son, his associate and co-ordinate Sons. [UB, Paper 13] [p. 144]

Sovereign Son

Sovereign Son - A Creator Son who has satisfactorily completed his seven bestowal experiences, whereby he lives and experiences the lives of the orders of beings that he, himself has created, in co-operative subordination to the Paradise Trinity. Although he could continue to rule the local universe of his own creation as vicegerent if he were to decline the bestowal experiences, the Creator Sons invariably choose the bestowal path. At the completion of their bestowals, they become Master Sons and earn sovereignty in their own right, with their rulership forever unquestioned, who then rules as the supreme representative of the Paradise Trinity, with maximum authority. In part, this means that there can never be a rebellion to his authority once he has achieved sovereignty. [UB, Paper 120, sec. 0] [p. 1323]

Spirit of God

Spirit of God - All spirit forces are one in function, regardless of plurality of origin, as all are part of the ministry of God the Sevenfold. [UB, Paper 34, sec. 6] [p. 380]

Spirit of Truth

Spirit of Truth - The spiritual endowment received from our Creator Son, used as a teacher, a helper to mankind to assist in growing, expanding, unfolding, and adapting to truth. Divine truth is spirit-discerned, existing on high levels of spirit attainment. Truth at the mortal level is relative and constantly changing; living truth is dynamic and its existence is experiential in the human mind. Jesus, at the time of Pentecost, sent his Spirit of Truth to live within the hearts of man, to help us in all aspects of our growth, to teach us to love, to perceive divine truths, to interpret our lessons of learning, to develop universe insight and wisdom, and to help us become dominated by truth-conviction. The Spirit of Truth brings a new enhanced fellowship with Michael, to experiencing the truth of sonship with God. The acceptance of this gift from Michael is the baptism of the spirit. Man is now influenced by a threefold spiritual endowment: The spirit of the Father, the Thought Adjuster; the spirit of the Son, the Spirit of Truth; and the spirit of the Spirit, the Holy Spirit. [UB, Papers 180, sec. 5 and Paper 194] [pp. 1949, 2059]

Spirit poisons

Spirit poisons - The mental poisons of fear, anger, envy, jealousy, suspicion, intolerance, as well as the physical poisons that pollute the tabernacle of the indwelling Thought Adjuster, seriously affect the spiritual progress of the evolving soul. [UB, Paper 110, sec.1] [p. 1203]

Spirit-Fused

Spirit-Fused - These beings are not adjuster fusion candidates, although they possess a Thought Adjuster during their mortal career, at death they fuse with an individualization of the Divine Minister and remain attached to the Local Universe. [UB, Paper 40, sec. 9 & 10] [pp. 450,452]

Spiritington

Spiritington - The Paradise home for the high beings that exclusively represent the Infinite Spirit, the Seven Master Spirits and their offspring. The secrets of reflectivity are kept on this sacred sphere. [UB, Paper 13] [p. 144]

Spiritual growth

Spiritual growth - This is the maturation of the soul, beginning at the first moral decision that brings the Thought Adjuster to indwell the mind, and continues throughout the ascension to perfection. Encountering difficulties is essential, as faith must be vigorously exercised. Although continuously aided by the ever-faithful Adjuster, the mortal is in charge, always making the decisions that lead to advancement, or arresting growth by being satisfied with small attainments and complacency. To advance, man must be devoted to supreme values, to depend on knowledge and wisdom, to be steadfast in the search for God, to be invigorated by difficulties, to be unified in personality by love, and to maintain balance between the growth of the intellect and the growth of the soul. [UB, Papers 98, 102 & 103] [pp. 1077, 1118-1142]

Splandon

Splandon - The major sector that Nebadon belongs to; the headquarters world is called Umajor the fifth. It has 70 satellites for advanced intellectual studies. [UB, Paper 15] [p.164]

Stephen

Stephen - Teacher at Coeur d'Alene, Idaho, visiting personality, Spokane, Washington.

Stillness

Stillness - The gradual practice of locking the mind to spirit, a technique or tool for the mind to make contact, to commune with the internal Thought Adjuster. When you recognize that your mind is overextended and scattered, that is a signal that you have need of contact with your Father. Seek through the practice of stillness, that quiet communion with Father, while he nurtures you, fills you with divine love, answers your deep longings, and gives you what your soul needs, needs that you may not be aware of enough to ask. Stillness is a personality state of being, it is a focus on the Father, a preparation of the mind and body for the soul to enter into sanctuary and

communion; it heightens sensitivity to the divine presence of the internal God fragment. Once you have mastered the art of continuous God consciousness, of being able to quickly commune with the Father at will, as did Jesus, then the technique of stillness may no longer be necessary, however it may remain valuable for those deeper longings of personal contact with Father. [Elyon, Light Line, Feb. 26, 2004]

Sumerians

Sumerians - Peoples living in the Mesopotamian region 200,000 years ago, where the Tigris and Euphrates rivers left a fertile delta ideal for farming. They learned much from the Planetary Prince=s staff in the city of Dalamatia, located in that area, concerning the growing of crops, domestication of animals, metal working, advanced pottery techniques, and the first use of written language. They became a superior culture and were greatly respected as teachers and civil rulers. [UB, Paper 77 and 78] [855-875]

Supernaphim

Supernaphim - The offspring of the Infinite Spirit, created in 3 separate orders: The primary order are the angels of Paradise, serving as companions and technical advisors, or as conductors of worship, custodians of knowledge, interpreters of ethics, and masters of philosophy. The secondary order, the angels of Havona, serve as counselors and advisors, Father guides and pilgrim helpers, supremacy guides and trinity guides. The tertiary order serve as custodians of records, broadcasters, harmony supervisors, intelligence co-coordinators, messengers, transport personalities, and the reserve corps. [UB, Paper 26] [p. 285]

Superuniverses

Superuniverses - There are seven gigantic superuniverses in a counterclockwise procession around the Divine Central Universe of Paradise perfection. Each of the seven is subdivided into 10 major sectors, 1000 minor sectors, and 100,000 local universes. We are part of superuniverse number seven called Orvonton. When seen from the outer edge, looking toward the Isle of Paradise, superuniverse number seven has the “shape of a spiral arm of a galaxy,” but it contains the entire Milky Way galaxy at its center. Its length and width far exceeds its depth, having all of its mass in a slightly flattened plane, with no material mass above or below this plane. Our local universe of Nebadon is out towards the periphery of Orvonton, in a region with other unfinished creations. [UB, Paper 15] [p. 164]

Supreme Being

Supreme Being - This is a very simple explanation of a very complex subject: The Paradise Deities functioning as the Trinity created a time lord, the Supreme Being to provide a focus point, a living repository, for all the experiences of time and then tasked the Supreme Being to unify that

experience into universal values. With the help of the Supreme Being, infinity itself will somehow be refocused to include the actual living experience of every single person to appear in time. The Supreme Creators, which include the Paradise Sons and Daughters and others, who belong to this group, work with the Supreme to improve the experiential values of themselves and their children for the benefit of the Supreme.

Talovenson

Midwayer of the 5th class, 3rd Order from the planet Neyadreeaya (Nay Ad Dree Ah), Number 507, of the Satania System. Talovenson (pronounced Tallow Venson) is a Midwayer of the Fifth Class, 3rd Order, from the planet Neyadreeah (pronounced phonetically as: Nay Ad Dree Ah), which is Planet Number 507 of the Satania System. They are in the first stages of Light and Life and had a Midwayer convention years ago and Michael arrived and spoke with them, Five hundred Midwayers from Neyadreeah volunteered to come to Urantia, and of that five hundred who volunteered, only seventy-five have arrived so far. Our Magisterial Son arrived ten millennia ago (entry into Glossary on 080614). There classifications of Midwayer names is far different from the practice used on Urantia.

Tantrus

Tantrus - Circuit Mechanic - greeted Waterloo Decimal Group, Lebanon, Oregon.

Tar-al-Kim

Tar~al~Kim - Tar-al-Kim is a Mighty Messenger, has been visiting the “jungle group” on Lake Arenal, Costa Rica , since September of 2000. His presence required the group to reach for ever new confidence of faith for a relationship with him to evolve. His status wand the energy of his spiritual love were new to the group. It was understood that there is a hierarchy in the universe, but that the spirit of love, truth, beauty and goodness is always the same. It was taught that we as humans have created beliefs that a greater humility or respect is required for the voices we receive from on high and higher on. Through the relationship with this Mighty Messenger it was made understood that humility and respect are really like love, always the same. Thought patterns were shown to prevent the entering of his stream of his live that would saturate each and heal.

Tarkas

Tarkas - Group Teacher, Cincinnati, Ohio & Half Moon Bay, California.

Teaching Mission

Teaching Mission - The teaching mission, conceived by Michael 2000 years ago, is Part II of the Fifth Epochal Revelation to Urantia. The first part is The Urantia Book, the text book for the correcting of the gaps in our universe education; the teaching mission is the individualized portion where the mortals are given the opportunity to work on any self-correction that we have need of because of the failures of earlier revelations to give us the necessary foundation for our spiritual growth. In the process of learning what we need to know for our own spiritual growth and universe education, we become teachers to those coming up behind us, our mortal brothers and sisters, who are ready to learn those lessons that we have already learned. This is the pattern of the universe—first we are students, then we teach what we have learned to others for a time before becoming students again for the next series of lessons. [See History section: Announcement, Woods Cross, Utah , USA , Apr. 20,1993] [Timeline, Jan 28, 2003]

Tenare

Tenare - Brilliant Evening Star, Arcata, California.

Tertiaphim

Tertiaphim - These are high angels, children of the Infinite Spirit and personalized on Paradise in groups of 1,000 as gifts to the Creator Sons when they begin the organization of their local universe. They continue as Son assistants until the arrival of the first-born of the new universe, who will serve as the Michael Son's chief executive. They then take residence on the superuniverse capitol and serve as liaison ministers between the Creator Son and the Ancients of Days. [UB, Paper 28, sec. 1] [p. 306]

The Scribe

The Scribe - This is a personalized Adjuster that once indwelt Jesus on his earth bestowal. "My name is unpronounceable, my number of great length. You may call me The Scribe." This Sananda is not to be confused with the secular Sananda Maitreya- a music group, nor with the Sananda or Maitreya publicized by Benjamin Creme as an incarnated and divine world teacher. But the Sananda discussed here was the indwelling spirit (see Thought Adjuster) of the Damascus Scribe, a name used to identify a great teacher in Syria who was none other than Jesus himself before his work in Palestine began. Sananda is a Personalized Thought Adjuster who has chosen to also use the identification, "The Scribe". Personalized Adjusters are a powerful order of spiritual beings that transcend time and space and whose universe work is essentially unrevealed.

Thought Adjusters

Thought Adjusters - These discrete spirit presences are the pre-personal fragments of the Universal Father which hail from Divinington, and arrive to indwell the mortal of their choosing at the moment the mortal signifies soul potential by making their first moral decision, which is usually around the age of five years old. Although equal in endowment of existential divinity, they may vary in the amount of experience they have accumulated by prior indwellings in non-fusion candidates. The more experienced Adjusters go to the minds of those mortals who have a higher type of mind potential and spiritual capacity, based on personality and hereditary forecasts. Once an Adjuster is assigned to a mortal, the relationship continues as the Adjuster works with the mortal mind to create a new mind for your eternal career as a spirit being with uplifting and advancing illumination of spiritual ideals. Other names for Thought Adjusters are Thought Controllers and Mystery Monitors.

Timmin

Tomas

Tomas - Tomas is a group teacher at Rio Rancho. His service to Urantia began on Valentine's Day 1993 and Albuquerque was established as a Teacher Base in mid-March of that year. After a year in personal ministry with T/R Gerdean, Tomas was invited to intern with Teacher Daniel in SE

Idaho . From 1994-95 Teacher Daniel and Teacher Tomas co-hosted "the dynamic duo." Tomas was then assigned to a Teacher Base in Pittsburgh, Pennsylvania , where he served 1996-1999, making inroads into New York and Canada . After instituting the Butler, Pennsylvania group, Tomas cultivated an association with Rob Davis, who also serves as Tomas' T/R. Thereafter, Tomas served in 2000 as a visiting lecturer with Elyon's Northern Idaho group and revisited the Spokane Teacher Base in 2001 with Teacher Aaron and Teacher Paulo. In early 2002 Tomas returned to New Mexico and assumed leadership of the Teacher Base he had inaugurated 9 years earlier; it remains active as the Rio Rancho TeaM. His co-Teacher, since July of 2002, is Anatolia . Thomas was a Cultural Anthropologist on his native world, located in a near by universe.

Tonsah

Tonsah - Group teacher for Wasatch, Utah and the Salt Lake City, Utah Group. Tonsah describes his home world: " I am from a decimal planet, one that has had the opportunity to grow in ways that are unusual, just like your planet. It is no accident that some of your people here on this planet are most unusual. My heritage is a combination of what you would call midwayer and mortal, morontial. I am both simultaneously physical, when I lived, and my people lived... and they still exist. I have capacity to see into the morontial, and yet live on the physical."

Transmitting/Receiving (TR or T/R, also TRing)

Transmitting/Receiving (TR or T/R, also TRing) - It is the method of communication being used between the celestial teachers and the mortals of Urantia. It is a state of conscious awareness rather than a trance-like state; the mortal willfully disengages the normal activity of the mind, suspends active thought process and "listens" and repeats the words or concepts that come through from the celestial teacher. This takes practice and trust, which is built up through time. It is necessary to be willing to set the ego aside, to serve as a voice for the celestial being, knowing that there is nothing to fear. The teachers who have been accepted for this work are all loyal to Christ Michael and the Eternal Father, have been carefully trained by the Melchizedeks, and strictly adhere to the mandate that they are to do us no harm, nor violate our free will in any manner. The Thought Adjuster is further protection and assurance that this process will bring no harm to us or to others. As the mortal mind is fully conscious, s/he may break the contact at any moment if the mortal feels at all uncomfortable about repeating the teacher's words for any reason whatsoever. In the beginning, the mortal's most common fear is that they are not certain that they are hearing the teacher's words accurately, and may therefore be hesitant about saying them. The teachers are quite patient and understanding with these beginning steps at learning the process. Always are the mortals treated with respect and tender loving care by all celestials engaged in this Correcting Time/ Teaching Mission activity. Trinity

Trinity - “In the administration of universes the Father, Son and Spirit are perfectly and eternally interassociated. Though each is engaged in a personal ministry to all creation, all three are divinely and absolutely interlocked in a service of creation and control which forever makes them one.” [UB, Paper 8, sec. 6.6] [p. 96] The Paradise Trinity can act separately (Father, Son, Spirit), as combinations of any two of them (Father-Son, Son-Spirit, Father-Spirit), or as all three together (Father-Son-Spirit), making a total of 7 Deity manifestations. In the seven superuniverses, each one of these Deity manifestations is represented by a separate superuniverse. Superuniverse number seven, Orvonton, the one we inhabit, is manifested as a representation all three Deities, the Father, Son, and Spirit. [UB, Paper 10] [p. 108]

Trinity Teacher Sons

Trinity Teacher Sons - These are the Divine Sons created by all three aspects of the Paradise Trinity. They are of the order of Daynals. There are more than 21 billion of these beings, and more will be created as needed. The Teacher Sons are concerned with moral enlightenment and spiritual development. At a distant future time, Urantia will receive a Trinity Teacher Son. [UB, Paper 20, sec. 7] [p. 230]

U

Universal Father

Universal Father - The Universal Father is God, known on our planet by many different names and concepts, and is in essence the First Source and Center, the creator of “ALL” that there is, the one and only uncaused reality, the source of all material, all energy, all spirit reality. Besides being the

Controller, the Upholder of “ALL” that exists, ever has existed, or ever will exist, he is also known as the First Person of Deity, a loving, compassionate and merciful Father, a personality worthy of our love, adoration, devotion and worship. [UB, Foreword and Papers 1-5, 105] [pp. 1-72, 1152]

Universe Broadcasts

Universe Broadcasts - Celestial circuits of communication, used between worlds and administrative centers, and used by all of the higher orders of celestial beings, assisted by tertiary Supernaphim, who can transmit 144,000 messages simultaneously, and are available to all parts of the universe, even to individual planets, except those in quarantine. Since the adjudication, Urantia is now being re-encircuited to receive these broadcasts; it will be a slow process so as not to overwhelm and frighten the people of Urantia. The Celestial Musicians can use these circuits as well. On Jerusem, the System headquarters world, the inhabitants gather at the receiving stations, in enormous amphitheatres during their leisure time to listen to the messages that come in continuously from all parts of the universe. One of the favorite topics of interest is to hear about what is happening on Urantia, the World of the Cross. Without assistance, the inhabitants of Urantia would be unable to understand the language of Uversa, and we would be further hampered by the lack of morontial extended senses, above the five that we have on our natal sphere, however even this is subject to change as mortals may begin blending their mortal bodies with their morontial abilities while still on Urantia and can thus increase their capacities and capabilities if their Adjuster deems them ready, being balanced in body, mind and spirit. [UB, Paper 46, sec. 3] [p. 522]

Urantia

Urantia - Although “we” have called our world “Earth,” the rest of the Universe calls our planet “Urantia.” It has been known as such, long before there were inhabitants able to communicate with a spoken language. The name takes origin from the Planetary Supreme who arrived with the Life Carriers to implant life, and who is named Urantia.

Urantia Book, The

Urantia Book, The - The Fifth Epochal Revelation is the plan of our Sovereign Creator Son, Michael, with the blessings of the Eternal Father, as remediation for the dual faults of our planetary administration, the rebellion of our Planetary Prince along with the evils unleashed by Lucifer, and the later default of our Material Son/Daughter, Adam and Eve. For 200,000 years, Urantia has been in conceptual poverty, languishing in spiritual darkness, and this text is given us to help repair that tremendous gap in our knowledge, and to help our world be uplifted to its rightful place in Michael’s universe. Michael did much to help our understanding when he came here as Jesus, but the peoples of Urantia have become even more divided in their religious beliefs and intolerant of each other as equal children of the same benevolent God. This text, very complete and accurate about our place in the universe and our standing before the Creator of all, was given to the mortals of Urantia with love, to be shared with all peoples of our world. Its purpose is to bring unity out of

division, joy out of pain, and love out of hatred. [Published by the URANTIA Foundation, 533 Diversey Parkway, Chicago, Illinois 60614, 1955. Urantia Receivers

When Urantia was taken over by forces loyal to Lucifer, the Planetary Prince, Caligastia, cooperated with the rebel chief, only to be deposed by the Creator Son on his bestowal as Jesus. Upon Caligastia's removal, twelve Melchizedek Sons arrived as care keepers of the spiritual government until such time a new Planetary Prince would arrive. While waiting for a new Planetary Prince, Urantia was governed with the aid of these 12 Melchizedek Sons Malvantra, Mantecha, Monsanloran, Mancortia, Mandelphi, Manturgia, Mamonjonlarsen, Manluermia, Mantumia, Malcormutia, Monjeremiah, Machiventa Melchizedek.

Uversa

Uversa - Uversa is the headquarters sphere of the seventh superuniverse of Orvonton. It is surrounded by 490 worlds of specialized training. We will eventually be residents of this sphere for a time while we prepare for our ascension toward Havona and Paradise. [UB, Paper 15, sec.7] [p.174]

It is not yet known whether his services in this context will still be required, since the "clear channel" announcement on January 29, 2004 relating to the completion of the System-wide Circuitry. Each Constellation Father serves for 50,000 years of Urantia time, and then becomes a member of the supreme advisory cabinet of the Creator Son, as the senior Vorondadek Son advances to become the new Constellation Father, the junior moves up to the senior position and one of the other Vorondadek Sons is chosen to move up to the junior associate position of the Most Highs. [UB, Paper 35, sec. 5-7] [pp. 389-392]

He continues to serve in the Indianapolis area as well as significantly contributing to the spiritual welfare of the Northern California TeaM efforts. Welmek is personable, drawing people out, asking for opinions and creating tapestries of morontia imagery before the mind's eyes of his students who adore him.

WhatAboutBob and Lady

WhatAboutBob and Lady - [1999] These are a Cherubim and Sanobim pair, personal mentors in "Be All You Can Be" for Gerdean and Angus. Assigned through Gorman in 1999 to the present. Specialty: Psych analysis and social development.

Will (Free)

Will (free) - Free will is a gift from the Universal Father to his mortal children, and no celestial personality has the power or authority to abridge it—even the Father will not violate a mortal's free will. Through this gift, mortals are able to make moral decisions and spiritual choices, experience unselfish love and purposeful co-operation, achieve cosmic insight, dedicate the personality to the doing of the Father's will, and to worship the divine—all by free will choice. Man must be fallible if he is to be free, and errors are inevitable. Mortals have a predetermined destination through the leading of their Adjuster, but no mortal is bound to follow this plan or any part of it, even to the point of choosing to reject survival. Experiencing early tribulations from misuse of liberty leads to higher loyalty as an end result, and the act of making many decisions and coping with the consequences leads to great wisdom in finaliters. Only other mortals on the worlds of nativity can abrogate the free will of another person, but they cannot interfere with that person's eternal survival. [UB, Paper 107, sec. 7; Paper 118, sec. 7-9] [pp. 1183, 1300-1304]

William

Wisdom

Wisdom - Mortals go through ascending levels of wisdom: The knowledge of things, the realization of meanings, the appreciation of values, the nobility of work/duty, the motivation of goals/morality, the love of service/character, and cosmic insight or spiritual discernment. Through the attainment of these levels, a slow, sometimes painful accumulation of experiences, one becomes truly God conscious, which in turn leads to worship. Wisdom is cumulative and can be taught to future generations. [UB, Paper 71, sec. 7; Paper 160, sec. 2] [pp. 806, 1775]

ZZ- Opinions and interpretations-Editor

ZZ- [Opinions and interpretations are those of the authors.] [Ed. The Celestial Teachers do not have the need for knowing someone's name, as we do, for they can communicate their personalities, history and knowledge through the mind whether they are in close proximity or very distant. Because of our need to have a name for them so we can keep track of to whom we are listening, most of them have condescended to come up with a name by which we can call them. They actually do possess both names and numbers in most cases, but they would be unpronounceable by us, as they are in a different language. If they feel that we could not pronounce their name, they may shorten it, change it a little, or make up a new one, using our vocabulary. Thus many of their names may seem comical, strange, familiar, or even ordinary. Some notable ones are, "What about Bob," "I'll be Frank", or just plain "Bob," Athena, Pulsar and Dr. Mendoza. It is not the messenger but the message, which is important.]
